From paper filed COUNTY CLERKS OFFICE Oct 10-1850

At a meeting of the Board of Supervisors of the County of Kings held at the County Jail of the said County on the eighth day of October A. D. 1850.

Application having been made to this Board by the Coney Island Plank Road Company at this meeting October 8th 1850 for authority to lay out and construct such road and to take the necessary real estate for such purpose - and such application having set forth the route and character of the proposed road as the same is described in the article of association heretofore filed - viz - from the City of Brooklyn or some point therein to Coney Island or some point therein, and it is intended to pass through the City of Brooklyn, the towns of Flatbush, New Utrecht & Gravesend and its length is about seven miles -

That the route proposed to be taken by the Company is, after reaching Broxton Street in the City of Brooklyn to pass over the new road or avenue leading from said Broxton Street to Coney Island as the same has been recently laid out and opened thence on Coney Island to a point on Duck Hill, so called, on which there exists a public road - thence across and along said Duck Hill to land of William Voorhees and thence across the land of said William Voorhees to some convenient point on the Island, so as to accommodate the public and to afford facilities of travel - And this Board of Supervisors of Kings County being of the opinion that the opinion that the public interests will be promoted by the construction of such road on the proposed route described in the application - and a majority of all the members elected to the Board assenting thereto, directs this order to be entered in its minutes whereby they authorize such company - "The Coney Island Plank Road" to construct such a road upon the route specified in the application, and to take the real estate necessary to be used for that purpose -
