Hon. Wm. L. Strong,  
Mayor of the city of N.Y.

My dear Sir:

As I have to leave for Europe to-day, I will not be able to present this petition to you in person, so send it by mail.

I send this letter to you, you being the chairman of the financial board, and beg of you to help us in this matter. The noise which arises from the wagons and trucks rumbling through this street is something unbearable.

By granting this petition, you will confer a great favor upon the residents of this neighborhood.

Yours sincerely,

*Judson Lawson*

#798 West End Ave.

To

The Honorable William L. Strong,  
Chairman of the Board of Estimate & Apportionment,  
and  
The Honorable William Brookfield,  
Commissioner of Public Works:

The undersigned, residents, property owners and tax-payers, residing in One hundred and fourth Street between West End Avenue and Riverside Drive respectfully petition the Board of Estimate and Apportionment to pave that street with asphalt from Western Boulevard to the Riverside Drive.

The block is short and built up with fine private houses on both sides so that there will be no disturbance of the pavement by reason of new buildings.

One hundred and fourth street is the first open street and thoroughfare to Riverside Drive north of Ninety-sixth Street and it also leads to a station of the elevated railroad.

There is, therefore, great traffic of carriages and other vehicles through the street to the Drive.

The present stone pavement, having been torn up and patched several times, is very uneven and in bad condition, and the noise of the traffic is becoming unbearable to the neighborhood.

It would not only be a great convenience to all persons who reside on the street, but it would also be a great convenience and pleasure to the public who are

compelled to use this street as a means of access to the  
Drive if this petition be granted.

## CITY OF NEW YORK.

**DEPARTMENT OF STREET CLEANING, CITY OF NEW YORK, CRIMINAL COURT BUILDING,  
CENTRE, WHITE, ELM AND FRANKLIN STREETS. NEW YORK, December 9, 1895. Hon.  
WILLIAM L. STRONG, Mayor, Chairman Board of Estimate and Apportionment:**

SIR—The pay of the men of the Department of Street Cleaning, as the force is estimated for 1896, would be at the rate of \$720 per annum.

1,500 Sweepers, including Drivers of machines and water carts .....	\$1,080,000 00
757 Drivers .....	545,040 00
79 Hostlers .....	56,880 00
20 Boardmen .....	14,400 00

2,356 men.....\$1,696,320 00

This is for 8 hours daily work.

At the rate as originally fixed by the Law of 1892 (\$600), it would be.....\$1,413,600 00

The difference amounts to ..... 282,720 00

For the whole year, or for each of 313 working days ..... 903 00

The usual pay for good citizen labor, as employed by contractors, for longer hours, deductions being made for idle days and rainy days, is not over \$400 per annum. At this rate, the pay of the force of the Department of Street Cleaning, as above, would be \$942,400. The City could get as good service for this amount as it now receives, employing only citizens. This would effect a saving of \$753,920 per annum.

(Italians and others doing equally good work could be had, in the open market, for \$350 per year.)

The difference between \$400 per year and \$720 per year, equal to a daily sum of \$2,408, is mainly an amount which may be said to be paid in deference to the mistaken idea that municipal employees should get higher wages for the same work than other workmen who are taxed to pay them; and to curry favor with the labor vote. Most of this money is practically taken from the people of New York as a contribution to partisan election funds. No man would pay out of his own pocket such wages for such labor in his own business.

If we assume that the City's employees are to be a corps d'elite, made up of selected men and worked to their full capacity, and that they should have somewhat higher pay, because they have to provide themselves with uniforms, to keep up a good appearance, and to set an example to other workmen, it would be proper to fix their wages at an average of less than \$600 per year, or less than \$1,400,000 for the whole force. This is really higher pay than it may seem to be, because it is for the whole year, without lost time for absence on leave, or for temporary disability. It would save nearly 1,000 per day on the cost of the work of the Department.

The question now arises as to the distribution of this sum among the workmen. The present plan of paying all at the same rate is grossly unfair. About 125 of these men are detailed to act as Assistants to Foremen, or in other important positions. These are selected for especial capacity and merit, for duties which are worth more than laborers' pay. Then, again, Drivers have much harder work than Sweepers, and they work longer hours; they should have more pay. So, too, the Hostlers have more responsible work, and they have to work 365 days in the year; they should be paid accordingly. Furthermore, there is a difference in capacity among the Drivers and the Sweepers, and the best of each should have more pay than their inferiors.

In my judgment, the force should be graded as follows:

125 detailed men at \$720 .....	\$90,000 00
100 Hostlers and Stablemen at \$660 .....	66,000 00
200 Drivers, Class A, at \$660 .....	132,000 00
150 Drivers, Class B, at \$600 .....	90,000 00
407 Drivers, Class C, at \$550 .....	223,850 00
300 Sweepers, Class A, at \$600 .....	180,000 00
300 Sweepers, Class B, at \$550 .....	165,000 00
900 Sweepers, Class C, at \$500 .....	450,000 00

Total.....\$1,396,850 00

Sweepers and Drivers now in service should be graded, according to merit, into Classes A, B and C. Newly employed men should be appointed only to Class C, and all should be promoted, as vacancies occur, to the next higher class, according to merit alone. Men suspended for more than three days should be reduced to the next lower class, and men dismissed should be reappointed only to Class C. Recommendations for promotion and reduction should be made only by District Superintendents and their superiors, and only on the ground of character, conduct and efficiency.

The saving of this scale of wages over the uniform rate of \$600 per year would be \$16,750. Under the law providing for a five per cent. annual addition to the force since 1892, a considerable increase beyond 2,356 men is allowed. I would suggest employing 100 extra men at \$156.50 per annum. This would be at the rate of 50 cents per day for 313 days. These could be used for help in the early morning clearing up. These extra men would get full pay, as now, when taking the place of absent regular men, and they would have a preference for appointment to Class C, as vacancies occur.

If the foregoing schedule is adopted by the Board of Estimate and Apportionment, the appropriation for the Department of Street Cleaning for the year 1896 may be reduced by \$283,820, and the force will still be more than liberally paid.

Respectfully submitted, GEO. E. WARING, Jr., Commissioner of Street Cleaning.

Hon. W. L. Strong,

Mayor.

Dear Sir:-

In accordance with Section 885 of the Laws of 1896, and the provisions of Section 9, Article 5 of the State Constitution, I have appointed James Mitchel and John B. Shea as Assistant Clerks, at a salary of \$2,500. each. I respectfully request <sup>that</sup> the Board of Estimate and Apportionment, in accordance with the provisions of the Act above referred to, may make provision for the payment of the salaries of the said Clerks so appointed as aforesaid.

Yours very respy.,

I deem it my duty, as Mayor, to call the attention of the Heads of the several Departments, and others of the City Government, in submitting annual estimates to the Board of Estimate and Apportionment, in accordance with the circular letter of the Comptroller of date July 30, 1896, that the strictest economy should be observed.

The annual increase in the amount of State tax that this City is called upon to bear, together with other items of a mandatory character over which the Board of Estimate and Apportionment has no control, must naturally increase the amount to be raised by direct taxation.

The increased accomodation required in our Public Schools, the additional Police and Fire Department facilities demanded; the cleaning and lighting of our streets; the preservation of our public health; the embellishment and maintenance of our parks and pleasure grounds; the care and preservation of our water system, our hospitals and asylums, our sewerage and pavements, our museums and libraries, all require additional appropriations as our population increases.

In our appropriations for 1897 we must realize that our City is larger by over 15,000 acres than before, and all to be not only improved, but maintained. While I believe in a liberal but judicious expenditure of our public monies, in order that our City may be maintained commensurate with its magnificence and importance, we must be mindful that all the monies so spent is raised by direct taxation, and taxation is felt by all classes.

In order that the importance of this matter may be recognized by all, I deem it my duty, at this time, to urge upon the head of each and every Department and office of the City Government to use the greatest diligence and care in the practice of the most consistent economy in the preparation of estimates for 1897, in order that the Board of Estimate and Apportionment may be enabled to appropriate the least amount that will secure efficiency and economy to the City Government during the coming year.

to the City Government during the coming year.  
The least amount that will secure efficiency and economy  
of Estimate and Appropriation may be enabled to appropriate

TO THE HONORABLE,

THE BOARD OF ESTIMATE AND APPORTIONMENT,

OF THE CITY OF NEW YORK.

YOUR PETITIONER "THE CATHEDRAL FREE CIRCULATING LIBRARY"  
RESPECTFULLY SHOWS:

THAT THE SAID "THE CATHEDRAL FREE CIRCULATING LIBRARY" IS  
A CORPORATION, INCORPORATED BY THE REGENTS OF THE UNIVERSITY OF THE  
STATE OF NEW YORK AND FORMED UNDER THE CHAPTER 378 OF THE LAWS OF  
1892 OF THE STATE OF NEW YORK.

SECOND. THAT THE SAID LIBRARY HAS THE LEASEHOLD IN THE  
CITY OF NEW YORK, OF THE BUILDING 123 E. 50TH ST. VALUED AT 22,000.  
DOLLARS AND ABOUT 20,000 VOLUMES AND MAINTAINS SAID BUILDINGS AS A  
LIBRARY WITH ALL PROPER APPURTENANCES FOR THE FREE CIRCULATION OF  
BOOKS TO AND AMONG THE INHABITANTS OF THE CITY OF NEW YORK, BUT  
ESPECIALLY TO THAT LARGE CLASS OF THE UPPER EAST SIDE ABOVE 42D ST.;  
THAT SINCE ITS FORMATION THE LIBRARY HAS BEEN LARGELY USED BY PEOPLE  
OF ALL CLASSES BUT ESPECIALLY BY YOUNG MEN WHO ARE THUS ENABLE TO  
SUPPLEMENT WHAT HAS BEEN, TOO OFTEN, A LIMITED EDUCATION; BY  
STUDENTS WHO HAVE BEEN ABLE TO SECURE HERE BOOKS NOT TO BE FOUND  
IN ANY OTHER PUBLIC LIBRARY IN THE CITY; BY SCHOOL CHILDREN AND  
STUDENTS AT THE COLLEGE OF THE CITY OF NEW YORK WHO HAVE FOUND COM-  
PETENT DIRECTION AND ASSISTANCE IN THEIR SEARCH FOR REFERENCES.

THIRD. THAT IN THE YEAR ENDED JUNE 30, 1896, SAID CORPORATION  
LOANED TO THE INHABITANTS OF THE CITY OF NEW YORK MORE THAN 65,000  
VOLUMES TO BE READ AT THEIR HOMES AND NO CHARGE WAS MADE FOR THE LOAN  
OF THE SAME, AND NO APPROPRIATION HAS BEEN MADE TO THIS CORPORATION  
FOR THE LOANING OF SAID BOOKS IN SAID PERIOD, BUT THE ENTIRE WORK  
HAS BEEN DONE BY PRIVATE AND VOLUNTARY EFFORT, THE CLASS MOST LARGELY  
BENEFITTED BEING THOSE WHO COULD NOT PAY ANYTHING FOR

SUCH BENEFITS AND WHOSE SUM OF HAPPINESS HAS BEEN MATERIALLY ADDED BY THE OPPORTUNITIES THUS AFFORDED.

FOURTH. THE SAID LIBRARY IS NOW SUBJECT TO THE INSPECTION OF THE REGENTS OF THE UNIVERSITY OF THE STATE OF NEW YORK REGISTERED BY THEM, MAINTAINING A PROPER STANDARD AND THAT THE SAID REGENTS HAVE EXECUTED A "CERTIFICATE OF APPROVED CIRCULATION" WHICH IS HERETO ATTACHED SHOWING THAT THE CIRCULATION OF BOOKS ACCORDING TO WHICH YOUR HONORABLE BOARD IS ENTITLED TO APPROPRIATE MONEY UNDER THE LAWS OF 1892, CHAPTER 378, PARAGRAPH 37, IS 66,000 VOLUMES, AND THAT THE APPROPRIATION WHICH CAN BE MADE UNDER THE SAID LAW CANNOT EXCEED 10 CENTS PER VOLUME, AN AGGREGATE SUM OF SIX THOUSAND FIVE HUNDRED DOLLARS, AND THAT BY AN AMENDMENT MADE TO THIS LAW BY THE LAST LEGISLATURE THE BOARD IS ALLOWED TO MAKE THIS APPROPRIATION OF MONEY IN THE CITY OF NEW YORK.

FIFTH. THAT SAID CORPORATION IS IN GREAT NEED OF SUCH APPORTIONMENT AND ALLOTMENT FOR THE REASON THAT THEIR ADDITIONAL WORK IS BADLY CRIPPLED BY LACK OF FUNDS--THAT THE DEMAND FOR BOOKS IS EVER INCREASING--THAT THE EMPLOYMENT OF SALARIED LIBRARIANS IS NECESSARY TO MEET DEMANDS: THE LIBRARIANS HERETOFORE HAVING SERVED GRATUITOUSLY AND FREQUENTLY AT CONSIDERABLE INCONVENIENCE.

WHEREFORE YOUR PETITIONER PRAYS YOUR HONORABLE BOARD MAY MAKE TO THE CORPORATION THE FULL ALLOTMENT WHICH UNDER THE LAW OF THE STATE OF NEW YORK IT IS AUTHORIZED AND EMPOWERED TO MAKE.

New York, Dec. 8th, 1893.

The Trustees of the Aquilar Free Circulating Library present to the Board of Estimate and Apportionment this statement requesting them to grant for the year 1897 the full amount authorized in the statute. This amount at the rate of ten cents per volume circulated according to the certificate approved the circulation would be \$31,500 as the circulation for the year ending Sept. 1st was 315,000, an increase of 50,000 over the previous year.

The attention of your honorable body is respectfully called to the fact that since the date of the last appropriation a new branch has been started at 178 E. 110th St.; a most densely populated section of the city and that since its opening on May 1st the average number of books circulated per month has been about 7,000, and now and larger quarters have also been provided for another branch at 613 E. 5th St. These additional libraries were opened largely upon the belief that your honorable body would approve of the extension of our work and give a larger grant in consequence of this extension. If the library possessed larger means it could extend these branches as the number of books on the shelves is entirely inadequate to the demand. This can be shown by the fact that since Sept. 1st there has been a constant increase in the circulation at all the branches.

These facts are presented to your honorable body because of our belief that a free library is as necessary to the proper education of the community as a free school. Good reading is one of the most potent influences in the making of good character and good character is the basis of good citizenship.

A comparison of the total amount of money appropriated for public libraries and for public library work in our city with what is appropriated in the other cities would show that New York is far behind in this regard.

It will be noticed that the location of our libraries is such that it brings them close to the people that most need the influence of good reading. In the vicinity of 187 E. Broadway where one of the libraries is located a large number of the residents are immigrants. At this library during the year ending Oct. 1st more than 100,000 books were circulated, a very large percentage of which were books relating to American History and Biography. In this quarter this library is largely aiding in training the residents in a knowledge of American ideas. The other libraries are located at 613 E. 5th St where with 3,000 books a circulation of over 20,000 was reached last year.

At 118 E. 59th St. more than 100,000 volumes were circulated last year, and as has been stated the average circulation at 178 E. 110th St. has been over 7,000 since the first of May. At all these branches care is taken to secure the co-operation of the public school teachers so that the library and the school work hand in hand. Our libraries have been started and largely supported by private help. With the growth of our work it is found more difficult to get adequate means and as the work is of a purely public character and has received the approval of the library authorities we earnestly hope that the request we have made will be granted. There are many needs that must be met for the improvement of our libraries\_\_, more books printed catalogues, larger quarters, increased numbers of reference books and more librarians. If the full amount that your Board is permitted to give is granted the better service will be assured.

New York, Dec. 8th, 1896.

The Trustees of the New York Free Circulating Library which circulated last year 680,000 volumes and the trustees of the Aquilar Free Circulating Library circulated last year 319,000 volumes, respectfully request your consideration of the annexed statements. The two libraries working on the same lines and almost uniform as the method maintained.

Eleven libraries, the total circulation of which last year was one million and which promises largely to exceed that number during the present year. The circulation of one million well selected books means the bringing into each household so many influences for good. Whether regarded as rational recreation or instruction these libraries add to the powers for good in our city and we therefore urgently request in the interests of the highest education the granting of the full amount allowed by law, which even if allowed will take but a very small portion of the over budget of the city. No extension received more cordial approval than the appropriation for free libraries. The Mayor in a recent letter expressed his determination to further as his highest ambition the cause of our city's education and no factor is more potent to that end than free libraries.

*New York,* December 14, 1896

Hon. Wm. L. Strong,  
Mayor, and  
Chairman of the Board of Estimate & Apportionment.

Dear Sir:-

Upon consultation with our Chief Engineer, I find that in the original plans for water mains on Fifth Avenue, there was an estimate made of 50,000 square yards of pavement to be relaid between 4th and 81st streets. Upon the determination, however, to repave with asphalt from 9th to 59th streets, there was deducted from the estimates for the water main contract the area to be repaved between those streets, namely, 30,000 square yards. The estimated cost of the repaving of said 30,000 square yards, at the prices bid in the water main contract, \$1.25 per square yard, it was understood was to be transferred from the water main fund to the appropriation for repaving streets and avenues. This transfer has not yet been made by the Board of Estimate & Apportionment, and the entire contract cost, namely \$318,100, for the repaving of Fifth Avenue with asphalt between 9th and 59th streets, is now charged to the special appropriation of one million dollars under Chapter 475 of the Laws of 1895.

The contracts which have been made for repaving chargeable to the million dollar fund therefor, for 1896, amount altogether to the sum of \$992,745.85, as per memorandum thereof hereto annexed.

*Department of Public Works,*

*Commissioner's Office,*

*No. 150 Nassau Street,*

*New York, \_\_\_\_\_ 189*

The contracts which have been made for water mains, and the estimated cost of new mains, and charges for engineering, inspection and contingencies authorized by the Board of Estimate & Apportionment, or heretofore requested to be authorized by said Board, amount to \$959,706 payable out of the water main fund of one million dollars, authorized by Chapter 669 of the Laws of 1896. If the \$42,500, the estimated cost of repaving below 59th Street above mentioned be transferred to the fund for repaving, the entire water main fund will be exhausted.

Very respectfully yours,

Deputy & Acting Commissioner of Public Works.

Board of Estimate and Apportionment,  
CITY OF NEW YORK.

Whereas, The Board of Estimate and Apportionment, on the 30th day of October, 1896, adopted the Provisional Estimate for the year eighteen hundred and ninety-seven (1897), and have considered the objections to and rectifications of said estimate, made by the Board of Aldermen on November 24, 1896, of the amounts required to pay the expenses of conducting the public business of the City and County of New York, in each department and branch thereof, and the Board of Education, for the next ensuing financial year, to wit, for the year eighteen hundred and ninety-seven (1897), in which estimate is included such sum as is necessary for the payment of interest on the bonds of the said City and County, which becomes due and payable within said year, which is not otherwise provided for; also such sum as is necessary to be raised by tax to pay the principal of any bonds and stocks which become due and payable during the said year, which is not otherwise provided for; also the amount to be raised by tax annually, which, with the accumulations of interest thereon, will be sufficient to redeem the stocks and bonds issued to provide for the supply of water, pursuant to the provisions of section 10 of Article VIII., of the Revised Constitution of the State of New York, adopted at the General Election held November 6, 1894, and also so much as may be necessary to pay the proportion of the State Tax required to be paid by the City and County of New York in said year 1897, as provided by section 189 of the New York City Consolidation Act of 1882, which objections to and rectifications of said Provisional Estimate were transmitted by the Clerk of the Board of Aldermen, on November 27, 1896, and considered by the Board of Estimate and Apportionment, on December 29, 1896; therefore,

Resolved, That after such consideration of the said objections to and rectifications of said Provisional Estimate, the Board of Estimate and Apportionment do hereby make this a

FINAL ESTIMATE

of the amounts required to pay the expenses of conducting the public business of the City and County of New York, in each department and branch thereof, and the Board of Education, for the next ensuing financial year, to wit, for the year eighteen hundred and ninety-seven (1897), in which is included such sum as is necessary for the payment of the interest on the bonds of the said City and County, and of the annexed territory, which becomes due and payable within said year, and also such sum as is necessary to be raised by tax to pay the principal of any bonds and stocks which become due and payable during the said year, not otherwise provided for; also the amount to be raised for the supply of water by tax annually, which, with the accumulations of interest thereon, will be sufficient to redeem the stocks and bonds issued, as provided by section 10 of article VIII. of the Revised Constitution of the State of New York, adopted at the General Election held November 6, 1894, and also so much as may be necessary to pay the proportion of the State tax required to be paid by the City and County of New York in said year, as follows:

A True Extract from the Final Estimate for  
the Mayoralty for the year 1897, adopted  
by the Board of Estimate and Apportionment  
at a Meeting held December 31, 1896.

Chas. Adee

Clerk

108

To the Honorable the Board of Estimate and Apportionment,  
Gentlemen:-

In submitting my estimate for the Registers Office for the year 1897 I have asked for Salaries the sum of \$129,000 or \$1,000 less than any of the estimates for the past five years, This in my judgment is the lowest sum with which the office can be properly conducted during next year.

Notwithstanding the dulness in the real estate market during the present year, an examination discloses that up to the present time there have been recorded in this office over 300 more Conveyances and Mortgages than during the corresponding period of last year. An excess of 500 in Chattel Mortgages also shows the increased volume of business

It must also be remembered that since the annexation of part of Westchester County more than 3000 papers affecting that section have been presented for record, although no additional appropriation was made to meet this increase in the amount of work.

With the prospect of greater activity in real estate circles next year the business of this office will be greatly increased, and with that in view I believe that my estimate will no more than meet the necessary requirements of the public service.

That there has been a marked improvement in expediting the return of papers and otherwise improving the tone of the office has been subject of frequent remark from those doing business with the office.

From personal observation I am satisfied that the employees of this office will compare favorably <sup>as to</sup> in competence.

tency and efficiency with those in any other office or department and their salaries and compensation for similar services should not be inferior to those paid in other municipal departments.

Some reductions might be made in the force in the office were we located in a building properly adapted to the needs of a Hall of Records, and I can only add my testimony to that of my predecessors, several Grand Juries, and the members of the bar to the imperative necessity for immediate action looking to a building adapted to the security of the public records.

Hampered as we are by the lack of proper facilities and the imperative necessity for having the work of the office carefully and promptly performed, it will be absolutely impossible to properly transact the business of the office with a smaller appropriation than the amount submitted in my estimate for 1897.

Very respectfully yours,
