Dear Mr. Adamson:

In reply to your letter of September 10th, would say that I have this day requested the Civil Service Commission to certify a list from which I can appoint one "Visitor" at \$1000.00 per annum in the Borough of Manhattan. If Mr. Alderman is No. 1 on the list and he will accept, I will appoint him to this vacancy. Sometime ago Mr. Alderman refused an appointment at \$1000.00.

Very truly yours,

Michael J. Drummond

October 27th- 1913.

Mrs. Lillian Seaman,
246 Hancock St.,
Brooklyn, N.Y.

Dear Madam:-

There is enclosed a receipt for money remitted and an envelope addressed to the Superintendent of this Bureau. The next time you make a remittance wrap the money in this letter and put it in the enclosed envelope; or, you might purchase a money order, payable to Victor S. Dodworth, Superintendent, and send that, as it is the safer way of making remittances.

If you prefer to send money be sure to have the letter registered, and do not drop it in the box, but hand it to the postmaster from whom you buy the stamps, and he will give you a receipt for it. Please write here (\$.....) the amount you send.

If you change your address, write the new address on the bottom of this letter.

Do not forget that when you are unable to pay you must call here and report the reason why, and this you must do at least once each month. Do not call at this office to pay or report later than 3 o'clock P.M. on week days nor after 12 o'clock noon on Saturdays.

Respectfully,

Superintendent.

Dear Mr. Matthews:

In reply to your letter of September 27th enclosing communication from Bernard H. Grefe of No. 165 A Stuyvesant Avenue, Brooklyn, I would say that the Kings Park State Hospital is not under the jurisdiction of this Department.

Application for the discharge of Herman Wempe should be made to the State Hospital Commission, Albany, New York, or to the Superintendent of the Kings Park State Hospital. There must be some good reason for detaining this man, because owing to the crowded condition of the State hospitals at the present time the Superintendents are only too glad to discharge those who, they feel, would be safe in the care of their relatives.

Yours very truly,

Commissioner.

NEW YORK. October 16th 1913.

Mr. Julian Beatty,
Secretary to the Mayor,
No. 5, City Hall,
New York.

My dear Mr. Beatty:

In accordance with my recent promise to you, I am submitting a few suggestions in connection with the budget estimate of the Department of Public Charities. These suggestions relate only to the items requested under the head of new activities, and are submitted in the order given on the sheets which you placed in my hands, a copy of which is attached to this communication.

NEW ACTIVITIES

Central Office Manhattan for Twin Island.

The Department is taking over the Jacob Riis Home on Twin Island, and we are informed that it is to be used as a convalescent home. Provision for convalescent care is badly needed in the Department of Public Charities, and the establishment of the home on Twin Island would greatly relieve the overcrowded conditions that exist during a great part of the year in the Metropolitan and City Hospitals on Blackwell's Island. Moreover, inasmuch as the cost of maintaining a convalescent home is much less

Mr. Julian Beatty p. 2.

than that of a general hospital, the establishment of this home will result in a considerable saving to the City, as convalescents are now kept at the general hospitals at a relatively high per capita cost, or, which is worse, they are very often discharged before they are physically able to take care of themselves, and as a result often ^{return} to the hospital and again become a burden on the community. The estimated capacity of the Jacob Riis Home is 60 or 75 patients and the number of employes requested for it appears to be quite reasonable for an institution of that size. A Supervising Nurse is surely necessary and at least one additional trained nurse would be needed also. For a head cook \$480 would probably be sufficient, with an assistant cook at \$360. It might be possible also to send the laundry work of the institution to Randall's Island or to one of the laundries on Blackwell's Island, thus making it possible to omit the two laundresses requested. I think the Commissioner's plan of providing more facilities for convalescent care an excellent one.

Bureau of Dependent Adults, Manhattan.

Desertion Bureau.

The idea of establishing a bureau to handle the desertion problem and provide for the extradition of deserters from other states is a splendid one, and we trust the proposed desertion bureau can be provided for in the present budget. Up to the present time, it has not been possible to deal adequately with this particular class, and a bureau of the kind proposed should go a long way toward preventing wife and ^{family} desertion. The Department of Public Charities is and always has been badly in need of examiners and for a long

time its work has been badly handicapped on this account. With the additional examiners or investigators that would come with the establishment of a desertion bureau, the Department could do its work much more efficiently.

We have no specific suggestions to make as to the employes requested, excepting to suggest that examiners might be sworn in as deputy sheriffs, thus doing away with the necessity of employing five police officers, and effecting a saving of \$7000 thereby.

Clearing House for Mental Defectives.

We have not had an opportunity to study the exact needs of the Clearing House as regards employees, and, therefore, have very few suggestions to make regarding specific positions requested. Speaking of the Clearing House as a whole, we favor its establishment and I shall endeavor to give a few arguments in support of our position.

In the first place, the Charities Department is at the present time the only Department that has the power to commit people to institutions for the feeble-minded, and it should by all means possess the machinery to do its work effectively. Whether or not at some future time other and fuller provision should be made, or whether this provision should be transferred to some other administrative body remains to be considered. The point is that we favor a clearing house in the Department of Public Charities to enable it to do the work now imposed upon it by law. I do not mean to imply that the Department of Public Charities should necessarily be the only department to carry on work of this kind. The Department of

Education may conceivably need to have a clearing house of its own for the effective performance of its task, which is that of knowing all about the children under its care. The only comments I would make regarding the specific positions requested would be to suggest a smaller number of psychologists (the two now employed at the Clearing House are unpaid) and to suggest further that five physicians might suffice if the Clearing House could be open both morning and afternoon. If this were possible, there might also be a corresponding decrease in the number of stenographers required.

Randall's Island.

Addition to Ward F.

I am inclined to think that the addition to Ward F itself could do very well with two or three trained nurses and four hospital helpers. This addition contains four small wards, with a total capacity of about forty beds, which might be increased to fifty in an extreme situation. These wards are to be used entirely for the idiotic and epileptic sick, and efficient care is needed. For this reason, we ^{are} strongly of the opinion that the hospital helpers should receive \$480 per annum as stated in the request and that the nurses provided be graduate nurses at \$600 per annum. I am sure that the other six hospital helpers requested are badly needed in other parts of the institution and we strongly urge that a part of this number at least be granted. If the six additional orderlies could be obtained they could be used to excellent advantage in Ward F where 150 low grade male idiots are now being cared for by four employes during the day, two of whom receive only \$10 a month, and at night by three very poorly paid and low grade employees. In fact, in this ward and the

North Hospital, which contains boys of much the same character, there are at present during the day, directly over these boys, six orderlies who receive but \$10 a month and five who are unpaid. At night in the same service, there are five orderlies at \$10 a month and seven who are unpaid. To those who know the general character of men available for this work and the quality of the service which they render, the need of better paid men to care for these unfortunate boys is very apparent indeed. We therefore respectfully urge that all of the hospital helpers requested for Randall's Island, namely ten, be granted.

Clearing House for Mental Defectives.

My comments under this heading would be much the same as stated above in speaking of that section of the Clearing House under the Bureau of Dependent Adults, Manhattan. The three physicians in this service now on Randall's Island are doing excellent work.

City Home, Blackwell's Island.

The Department is asking for a "trade instructor" for this institution at \$1200 per annum. A year ago Commissioner Drummond, on the recommendation of this Committee, decided to try an experiment in industrial work, and a young graduate of the Pratt Institute was employed to teach rug and mat making, broom making, etc., to such inmates of the Farm Colony as were able to do that kind of work. The results so far have been excellent, many useful articles have been produced, and the expenditure has been more than justified. We feel confident that the relatively small sum of money asked for will more than pay for itself in useful articles and contented inmates.

King's County Hospital

New Children's Hospital.

We are informed that a sufficient number of trained nurses and hospital helpers for the new Children's Hospital has already been provided for by a transfer from the Sea View Fund, and if this information is correct, these items are not, strictly speaking, new activities. It goes without saying that the items should be granted as the Children's Hospital is now carrying on its work in the new building.

New Staff House.

My only comment regarding this particular request is as follows: The number of employes desired is nine, and inasmuch as three employees, namely a cook, a waitress and a cleaner, will be transferred from the old staff house, there is a likelihood that the number granted at the present time could safely be reduced to six.

Additions to Psychopathic Building

It may be that the number of hospital helpers asked for under this heading may be somewhat in excess of the number that will actually be needed during the coming year, and unless a large number of alcoholic cases are added to the service, it would seem that eight or nine additional hospital helpers would be sufficient, as the number of psychopathic cases admitted to the King's County Hospital is not likely to increase very greatly during the next twelve months.

City Home, Brooklyn.

The Department is asking for a "trade instructor" for this institution also at \$1200 per annum, and our comments on this item under the heading "City Home, Blackwell's Island" will hold good here.

Mr. Julian Beatty p. 7.

It might be well to add also that the term "trade instructor" is rather misleading. The idea is to provide useful occupation in the simpler industries that will keep the old people employed and turn out articles that will be useful to the City's departments.

New York City Farm Colony.

New Laundry.

A laundryman is needed to take charge of the new laundry at the Farm Colony. Laundrymen in charge elsewhere get, as a rule, \$600, but as the Farm Colony is more remote, it would seem that there should be a more responsible man in charge, because of the probable less frequent visiting by the departmental laundryman. I would suggest that this man ought to be paid \$750 or \$900. We are informed that the six hospital helpers are needed for the laundry also, but we suggest that a few better paid helpers, who could have general oversight of the unpaid helpers, would be better than to provide six at the low salary of \$240. I therefore suggest that two or three be provided at salaries of, say, \$360 per annum.

The Department is asking for a "trade instructor" at \$1200 for this institution. It is here that the experiment described above has been tried with such gratifying results.

City Hospital.

New Laundry.

One laundryman in charge is requested at a salary of \$900. The work is now being done by a woman whose salary is, I believe, \$600. She is doing the work very satisfactorily and, inasmuch as the institution can be visited frequently by the departmental laundryman, the present

Mr. Julian Beatty p. 8.

salary would appear to be sufficient.

Metropolitan Hospital.

New Male Dormitory.

Four hospital helpers at \$240 each are requested for the new male dormitory at this institution. Last year the Metropolitan Hospital received the most liberal allowance for hospital helpers of all the institutions in the Department, and if the same number is allowed this year, they will probably have no difficulty in taking care of the new male dormitory.

Proposed Bureaus of Dependent Adults.

Boroughs of Bronx and Queens.

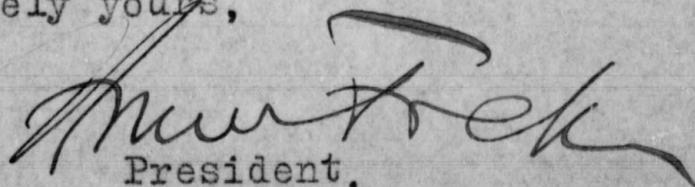

These bureaus are requested to take charge of the Department's work in the Domestic Relations Courts in the Boroughs of Bronx and Queens. It does not seem to us necessary to establish these bureaus at the present time, but there should undoubtedly be one or two additional examiners in each of the Boroughs to represent the Department at the Courts.

New System of Budget and Expense Accounting.

If the present system of budget and expense accounting is to be continued, it is imperative that the Department have additional clerical force to do its work. However, the new system seems to us in the main unnecessary and fruitless and we believe it ought to be changed.

Trusting that these few suggestions may be of some value to you, I am

Sincerely yours,

President.

There are 15,000 Feebleminded Children in New York City

2,253 of them, according to Supt. Maxwell's report, July 31, 1912, are cared for by our Public Schools, in ungraded classes for 960 hours out of 8,740 each year.

2,253 are cared for by
our Public Schools
for 5 hours, 192
days each year.

12,747 are at all times allowed to
mingle with normal children in
graded classes and on the streets

Do you care what becomes of these unfortunate children?

Do you care what injurious effects they have on your normal children?

Are you interested to help us construct an environment for them, where they can neither harm themselves nor be a menace to others? If you are, then come to the arcade in the Metropolitan Building between 11 A. M. and 10 P. MICHAEL J. DRUMMOND, Commissioner

YOU must help determine the future policy of New York City in caring for its 15,000 unfortunate children. Shall we continue, as at present, to care for only 14 per cent. institutionally, while 86 per cent. are free to roam the city streets and mingle with our normal children at home? Shall we continue a policy which is responsible for *crime, vagabondage and pauperism*, resulting from our failure to protect these unfortunates? Or shall we create institutions where part of them may be reclaimed to useful citizenship or partial self-support and all the rest be protected *from themselves and prevented from harming others*? Institutions where the environment shall fit the peculiar need of the individuals to be served by providing suitable employment, by giving training in manual and industrial arts, and in other ways making life worth while for them?

We want you to know the facts so you may be able to determine this question purely on its own merits, that is, what is the best policy for the City to follow in relation to this tremendous burden of feeble-mindedness.

My dear Mr. Mayor:

I beg to enclose invitation for the Dedication Exercises in connection with the new Sea View Hospital, Staten Island. I am very desirous that you honor us with your presence on the occasion. If you will kindly accept, I will arrange to call for you and bring you to the place by motor.

The new Hospital is the largest in the United States and the work which it will undertake, namely-the care of tuberculosis patients, interests a very large number of our citizens.

Hoping to receive a favorable reply at your convenience, I am, with best wishes,

Yours very truly,

Dear Mr. Mayor:

This is only to acknowledge the receipt of your letter of November 10th, which came into my hands this morning, containing a communication from Comptroller Prendergast, dated November 6th, and a leaflet headed: "The Truth about the Attack on the Charitable Institutions".

I shall very gladly reply, stating the facts just as they are, although I very much regret that I am called upon to do so. I venture the assertion that no fault will be found with me for my action in this matter.

Dear Sir:-

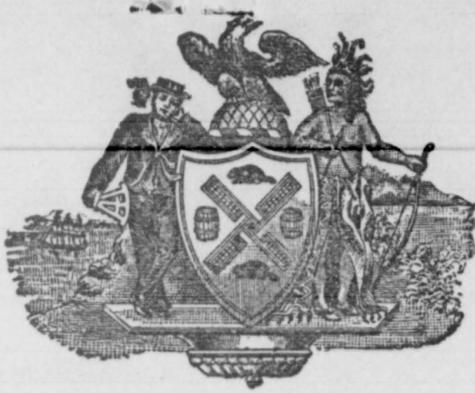

The attached communication to his Honor the Mayor, Ardolph Kline is returned, together with our report as follows:

Julius Cohen was convicted in the Court of Special Sessions, Brooklyn, of being the father of an illegitimate child born to Estella Damsky on August 29th, 1912, and ordered to give a bond in the sum of Two Hundred Dollars to secure the weekly payments of Two Dollars, together with the sum of Twenty Dollars representing lying-in expenses. The case was appealed by Mr. Cohen and decision handed down on the 17th day of October, 1913, affirming the order of the lower court. On the same day a bond was given, and is now on file in this Office, having been received October 20th, 1913. The order of filiation dates from December 23rd, 1912, on which date the child was born. Up to the present date the sum of One Hundred and Fourteen Dollars is due, which the defendant promised he would attend to this week. If the defendant fails to keep his promise, we will be obliged to institute action to recover, as we have no alternative.

Respectfully yours,

Dear Mr. Matthews:

In further response to your communication of November 20th regarding Joseph Sherlock, aged 22 years, of No. 343 East 75th Street, who is suffering from tuberculosis and who desires to be admitted to Ray Brook Hospital, I would say that he has been examined at our Tuberculosis Hospital Admission Bureau, Manhattan, and found to be suffering from tuberculosis in an advanced stage, so much so that he is not a suitable case for Otisville, Ray Brook, or Sea View Hospital. He is, however, a proper case for Metropolitan or Riverside Hospital, and we advised him to go to Riverside Hospital and offered to place him in that institution. He refused to go and stated he would return to Liberty, New York.

There is, therefore, nothing we can do in the
matter.

The Sisters in charge of the Hospital say, the baby was given in adoption, absolute surrender, to the Sisters of the Misericordia Hospital; therefore, when the child died, as the mother had given up all claim to the child, they had not notified her. I have, however, notified the mother how the body can be exhumed, and how she can obtain it for burial, the child having been buried at Hart's Island.

Dear Mr. Matthews:

In reply to your communication of November 28th forwarding letter from Mr. William Kunstler of No. 652 Broadway and also letter from Dr. I. Friesner who has until recently been allowed the privilege of making an examination of unclaimed bodies at the Morgue, would say that I have had the matter investigated and find that it is a violation of the law to permit Dr. Friesner to perform autopsies on the bodies of unclaimed dead. The law provides that these bodies shall be distributed to the different medical schools. The law was amended last year so as to include post-graduate medical schools.

There is a great demand for bodies, and the only way in which Dr. Friesner could be allowed to perform autopsies at the morgue would be for him to be appointed to some professorship in a medical school; then each body on which he operates could be charged as a body distributed to the medical school of which he is a member.

I am informed that Dr. Friesner wishes this privilege not only for himself but for the purpose of instructing students in minor operations. I presume Dr. Friesner is paid by these students

Dear Friend Steve,

The copy of that letter has not materialized yet, neither have I heard from Fr. Moran.

Yesterday we received the calendar you sent us. Thank you for it.

The substance of the letter on file in the office of the Civil Service Commission is as follows:-

Com. Drummond wrote to the President of the Civil Service Commission some time after March 31, 1913, the date of my dismissal and acknowledged that in his

hurry to finish the day's work, my dismissal was signed before he had an opportunity to investigate the charges preferred against me.

He further states that when he did investigate he found that a great injustice had been done me and begs to have my name placed on the preferred list.

Com. Fogarty has blighted my life. Since he took command he has persecuted me and I never had any redress. When my name was placed on the Civil Service list I thought some one would look after my interests, but I was mistaken.

I am still very weak. My writing shows it.

Now, dear friend, I wish you "God speed." If you do not succeed my last hope is gone.

We all send kind regards.

Sincerely,

Delia A. Maxwell.

Dear Sir:

Replying to your communication of the 8th instant, I am directed to inform you that the Commission is without power to authorize either the reassignment to duty of Miss Delia A. Maxwell as a Visitor in your Department, or to restore her to the eligible list for further certification.

Under the opinion of the Corporation Counsel, an appointing officer has no power to review his action in dismissing an employee, except in accordance with chapter 302 of the Laws of 1913, which provision of law has been held to apply only to permanent appointees.

Under the ruling laid down in the matter of Sweet v. Lyman, 157 New York, page 368, the probationary period is held to be the final test of examination. According to the record, Delia A. Maxwell was dropped at the end of her probationary period for the reason that her services were unsatisfactory, and under the decision referred to, it may be held that she failed to pass the final test in her examination.

July 8, 1913.

Frank A. Spencer, Esq.,
Secretary, Municipal Civil Service Commission,
No. 299 Broadway, New York City.

Dear Sir:

On January 1, 1913, Delia A. Maxwell was appointed as a "Visitor" in this Department, in the Bureau of Dependent Adults, Brooklyn, at \$1000.00 per annum, she having been certified by the Civil Service Commission as eligible for appointment to said position and her appointment having been made in accordance with Rule XI, paragraph 2, of the Civil Service Rules and Regulations.

On March 31st I received a letter from the Second Deputy Commissioner recommending that she be dropped from the roll for unsatisfactory service during her period of probation, to take effect that day. This was the first intimation I had received that her services were unsatisfactory and, as it was the last day of her probation, immediate action was necessary. However, before taking that action, I demanded a statement in detail from the Second Deputy Commissioner showing wherein her services were unsatisfactory, and after receiving that statement, about 4 P. M., I notified Miss Maxwell that her services would not be required after the end of her probationary period, which ended that day (March 31st). Notice was served on her at her residence as the office had closed before I could act.

Since that time I have made investigations and received letters of explanation from Miss Maxwell, and I am now satisfied that the reports presented to me were somewhat biased, and had the matter been called to my attention before the 31st day of March, the last day on which I could act, I would not have dismissed her because I would have had time to fully investigate the reports and conditions and receive her explanation.

I wish to do justice to Miss Maxwell. I cannot reinstate her as we have no vacancy. I would respectfully request, however, that her name be restored to the eligible list as Examiner of Charitable Institutions in the same position it was originally.

All letters, papers and reports in connection with this matter are on file in this office and, should you so desire, I will gladly forward them to you for your consideration.

Respectfully yours,

My dear Sir:-

As per your request of December 8th, we are sending to Mr. Edward E. Moore, Assistant Secretary to the Mayor of Boston, copy of our annual report which includes the report of the Municipal Lodging House for the year of 1912. We are also sending him copy of the section of the Charter relating to the Municipal Lodging House, also copy of the law as found in Chapter 535 laws of 1886.

Respectfully yours,

Translation by Rudolph Holde

To His Honor the Mayor
of New York City.

From your noble and magnanimous
heart I expect and act of charity and of compassion.

I am alone and sick and I have two sons
committed to an institution. The first, is named Raffaele
Cinque, is seven years old and has been placed in the
St. John Home, Brooklyn, the other one named Salvatore
Cinque 4 years old has been placed in the Angel Guardian
Home, Brooklyn. As I am sick and alone I cannot
do so much traveling and make expenses and therefore I
desire that you would cause my son Salvatore to be sent
and placed in the same institution, the St. John's Home,
where my son Raffaele is. This change can be made by
the Children's Bureau at 327 Schermerhorn St., Brooklyn.

From your Honor, who is the chief of the city, I expect
this great benefaction for which the Almighty God will
recompense you. With thousand thanks and blessings
I sign, with all respect and humble obedience,

Your Honor's most devoted servant

IN ANSWERING REFER TO 2432

December 15th- 1913.

Hon. Michael J. Drummond,
Commissioner, Dept. of Public Charities,
City of New York.

Dear Sir:-

In relation to the attached communications concerning the case of Mrs. Lillian Seaman, I would respectfully submit the following report:

According to the records on file since July, 1907, this Department has experienced considerable difficulty in trying to comply with the numerous requests of Mrs. Seaman to provide for her children and to discharge them to her care.

At the time of the several annual reinvestigations to determine her ability to care for the children, it has been almost next to impossible to gain sufficient information from her to properly decide her case.

Under date of October 3rd- 1910, an Examiner reports that in calling the case to the attention of Dr. Nichols of the Bureau of Charities for temporary relief, he stated that he knew the woman well and that under no circumstances would he give her shelter again; that he had advised and helped her often, and that she was ungrateful and untruthful, and that she could well care for her two children; he added, however, that if she could not find lodging, he would send her

over to the Municipal Lodging House to remain there until she should find rooms.

On October 3rd, 1910, two of her children were again committed to the American Female Guardian Society and Mrs. Seaman signed an agreement to pay nine dollars a month, payments to begin November 3rd- 1910. At that time her four children were public charges.

On May 31st, 1911, it was learned that Mrs. Seaman had not worked steadily since February, 1911, owing to illness. Her existing indebtedness amounting to thirty-seven dollars, was then cancelled.

One of her children, Margaret, had been committed through the Children's Bureau of Manhattan. On July 10th, 1911, this child was discharged to her mother and in view of that the agreement she made at this office was cancelled. At the time this agreement was cancelled Mrs. Seaman was in arrears to the amount of twenty-seven dollars. From November 2nd, 1910 to August 10th, 1911, she paid the sum of twenty-six dollars.

The Brooklyn Society for the Prevention of Cruelty to Children, under date of October 19th- 1911, reported, in part, the following:

"It was alleged that Margaret was being abused by her mother who constantly was finding fault with her; often threatened her with a beating and was continually kept indoors. While it cannot be said that the mother was addicted to drink, it seems she had not given the daughter the proper treatment a mother should. The girl refused to return to her mother and on September 5th, in Children's Court, she was committed to the care of this Society. Previous investigations show that Mrs. Seaman was a woman of violent temper".

Dec. 15th- 1913.

As the result of a reinvestigation Mrs. Seaman signed another agreement on December 6th, 1912 to pay the sum of five dollars a month toward the cost of the care and maintenance of her children, payments to begin December 13th, 1912. At that time she was earning five dollars a week and her board and had no one depending upon her for support. Since that date she has paid thirty-five dollars and now owes thirty dollars.

Several attempts were made this year to ascertain why Mrs. Seaman did not pay according to her agreement. As she had not paid since April 15th, 1913, and had not made known her reason for not doing so, on August 8th, 1913, her visiting was prohibited. During September she made a payment and was immediately given permission to visit her children.

The following is a copy of a letter dated September 29th, 1913, Mrs. Seaman received from the American Female Guardian Society:

"Dear Mrs. Seaman:-

When you were here a week ago yesterday, I told you not to come over on Sunday and not to leave fruit here on Sunday. You don't pay any attention to this and Miss Packard says if you come again you can not see the children on visiting day. Your permit does not give you permission to see the children except according to our rules, which is on the last Friday of each month only unless quarantined, in which case no one can help. Please attend to this request for Miss Packard will take this matter up if you do not abide by our few rules.

Very truly

M.T.Young

If you bring any more fruit it will not be received"

On October 7th, 1913, Miss H. Marion Packard, Secretary of the American Female Guardian Society, wrote this Department as follows:

Hon. Michael J. Drummond, --4--

Dec. 15th- 1913.

"We would like to suggest that Mrs. Seaman take her two girls Wanda and Madeline out of the Home. She comes here very well dressed and bringing loads of the very best fruit and candy.

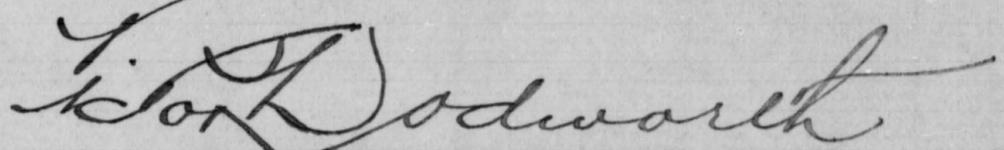

We do not think the City should be supporting her family. We have had 4 of her girls - 2 have left us. Does she pay board to you - if so it is all right. She pays nothing here, and we think she is a very extravagant woman.

Yours truly,

H. Marion Packard,
Ass't. Cor. Sec'y"

As our records will prove, this Department has been most patient and lenient with Mrs. Seaman in all of its dealings with her.

Yours respectfully,

Superintendent,
Children's Bureau

Dear Mr. Matthews:

Replying to your letter of December 12th
in regard to the complaint of Mrs. Lillian Seaman, you will
find herewith a statement bearing on same, dated December 15th,
from our Superintendent of the Children's Bureau, Mr. Dodworth.
I think this statement is a full reply.

Mrs. Seaman is one of a type of persons
who use our Department in and out for a long period of years,
have no appreciation, and are always looking for some slight
reason, or no reason, to abuse those who are trying to do their
full duty.

Hon. Michael J. Drummond,
Commissioner of Public Charities,
Ft. E. 26th St., New York, N. Y.

Dear Sir:-

In relation to the attached communications concerning the case of Antonio Cinque of 209 Harrison Avenue, Borough of Brooklyn, I would respectfully submit the following report:-

Upon receipt of your communication of the 20th inst., an Examiner was immediately sent to the address mentioned, 209 Harrison Avenue, and he called there at 4:30 P. M. and 6:30 P. M. on the same day. He reports that the address is that of a barber shop, and that Mr. Cinque does not reside there, nor would the barber in charge of the shop disclose Mr. Cinque's address. Although several attempts have been made to have Mr. Cinque call at this office in order that this Department may ascertain where he lives, as to whether or not he is in a position to do anything for his children, he refuses to do so, and instead communicates directly with the office of the Mayor, and under date of January 11th, 1913 he wrote to Former Governor William Sulzer concerning this case. The attached communication is the third referred by the Mayor to this Department in less than two years, and in each case report was submitted to your office under the following dates, April 22nd, 1912 and April 14th, 1913.

Nevertheless, I can see no objection to complying with his request to have his children brought together, but at the present time the

Hon. Michael J. Drummond (2)

Angel Guardian Home, of which Salvatore is an inmate, is under quarantine, and therefore it is not possible to do so now. As soon as the quarantine is raised from the Institution by the Department of Health, steps will be taken to effect the transfer.

It would be well, however, and I would respectfully request the same, that Mr. Cinque be directed to furnish this Department with his place of abode in order that the usual reinvestigation may be made in his case.

Very respectfully,

Second Deputy Commissioner.

Sir: -

Referring to the enclosed letter from F. W. Gwinn, Jr.--

The capacity of the Municipal Lodging House is 700 beds for men and 49 for women and children. Last night we cared for 1461 men, women and children. Same night a year ago, 535. Excess over the Lodging House accommodations 712, men whom we had either to turn away or, in the cause of humanity, find some other means of helping. This we have been doing by sending the excess to the foot of East 26th Street and utilizing our waiting-rooms on the dock and our two steamboats located there. The extraordinary increase in applicants, even before Winter comes in, indicates a hard Winter for the destitute and which will tax the resources of this Department.

At 6 A. M., we begin receiving the day's milk and other supplies for 11,000 persons located on Blackwell's Island and Randall's Island. It is absolutely necessary that the men sleeping on the dock and on our boats should be awakened and sent over for their breakfast to the Lodging House in ample time to enable us to clean up our dock and boats, which takes about one and one-half hours. Moreover, these men have to be served breakfast before we begin with those who have slept in the Lodging House--as our dining-room capacity is limited to 100. This morning we began serving breakfast at 5 A. M. and, although our people worked as rapidly as possible, it was 8:45 before all had been helped.

So far as the newspaper account is concerned, we know nothing about it. Our hours for awakening are-- on the Dock 4:30 A.M.; Lodging House 6 A.M.

By request, I met the Reverend Percy Stickney Grant, Rector of the Episcopal Church of the Ascension, at the Lodging House, last Friday evening. He was accompanied by two ladies, members of the Social Relief Committee of that Church. This incident furnished an evening newspaper with an opportunity to say that I gave a reception to 250 persons whose automobiles lined 25th Street from avenue to avenue. So much for newspaper exaggeration.

Respectfully,

Commissioner.

S i r : -

In relation to the matter referred to in the letter of Mr. George H. Jackson, Secretary of the Memorial and Executive Committee of the G. A. R. in Kings County, would say that the granting of relief and the amount of same is vested in the Relief Committees of the different G. A. R. Posts.

The letter of Mr. Suskyn, Superintendent of the Bureau of Dependent Adults, Borough of Brooklyn, to Mr. Pilcher, Commander of U. S. Grand Army Post No. 327, was unwarranted and very discourteous. Mr. Suskyn was recently appointed to the position he now holds. I appointed him very reluctantly, but he was No. 1 on the eligible list for this position and I had no alternative. Mr. Batchelor who had been Acting Superintendent for some time was a gentleman and his work was entirely satisfactory, but he was not certified for permanent appointment by the Civil Service Commission.

As you know, the Brooklyn Division is in charge of Dr. Thomas L. Fogarty, Second Deputy Commissioner of Charities. I am sending him a copy of your letter as well as the letter of Mr. Jackson with a request for a prompt report.

Respectfully,
