Dear Sir,

In view of the considerable public interest which promises to attach to the first exhibition of "Horseless Carriages" in New York, I would be much pleased if you can be present at the start in City Hall Square on the morning of May 30<sup>th</sup> and can accompany the judges, (General Miles General Craighill, Mr. Webb and Mr. Astor) to The Ardsley Country Club at Swanton-on-the-Hudson where the trial and inspection will

take place: and also that you  
will be able to dine with the Joneses  
at the Country Club on the same  
evening.

Mayor.

My dear Sir,

I presume there is no necessity for any appearance before you to advocate the expenditure of \$1,000,000. for laying additional water pipes, and that being so I will not be there at the hearing, unless there is some special reason why the Board of Underwriters should be there represented. No official action has been had on this particular bill as it had not come to our notice, but the Board is most heartily in favor of every movement that will increase the water supply of the City -

I am Sir  
Yours very truly

My May 5/96

Dear Mr Mayor

Permit me to say that it would  
be a God send for Washington  
Heights to have the L. Road ex-  
tended, something that the  
residents have been praying  
for during the past twenty  
years, And up to this time have  
never had a Mayor that took  
any interest in the upper of  
the City. Had some of the pre-  
ceding Mayors advocated said  
Extension, the Road would have  
been constructed and running  
in good shape by this time  
adding millions of dollars in land  
valuations and increasing the popula-

tion many hundred of  
thousand, may the Lord  
aid you in the undertaking  
and give you desired health,  
strength, power, and ambition  
to keep at these people  
so that the people will  
obtain through you immediate  
relief? If it should not be  
advantageous to the L. Co to  
run or build a Road to  
the Indians live, let them  
build as far as Fort George  
and possibly in a few years  
some means may be devised  
by which they can go over  
hollow or low lands between  
Fort George and Kingsbridge  
If such could be done it

would be the means  
of keeping the Kingsbridge  
Road which is the main  
outlet of the City free  
from any obstruction

By means of an electric  
Road from St. George to Kings-  
bridge the people of that  
vicinity would be relieved  
for a few years, and we  
must bear in mind that  
the Third Ave. Ry. Co. is about  
to construct a surface line  
up the Kingsbridge Rd to  
the City limits.

Why not give the St. George  
Extension and in a few years  
as I suggested devise some

Means to get over the low  
lands at inwood.

I write these few sug-  
-gestions simply as a Reviewer  
of the upper end

Truly Yours

Hon W. L. Strong Mayor of New York

Dear Sir:

I notice in the newspapers that you are expected to use your influence in behalf of the 2 per cent tax to aid the old Volunteer Firemen. I sincerely hope you will oppose them. You know as well as I do that almost every Volunteer Firemen's Association in the City is nothing more nor less than a Democratic Club. Kept up for political uses, and moreover many of these old Volunteer Firemen hold political jobs under Democratic bosses. They have no right to that insurance money. It should go, in my estimation to the present duty-doing paid fire department. The old Department was a disgrace to the city of New York, and always used as a Democratic political machine. Give the money to the men of to-day and not to the relics of a bygone age. Hoping you see the truth of my remarks. I am

Hon. Wm. J. Strong,  
Sir,

—

I have been told that you desire to know something definite about the way in which Mr. Jasper, City Superintendent of Schools, carries on his work, as indicating his fitness for the position.

The Manual requires that he shall visit every school as often as once in each year. Instead of this the schools are examined usually about once in every year or a half by the Asst. Superintendents. In one school I found two very inefficient teachers, who had been

reported "deficient" after such an examination in Dec- 1894, but were still holding their positions in January, 1896. Of one of these a Trustee told me that he had been there twenty years, in my father's time & mine and was never fit for it."

In another school the Principal is recommended by the City Superintendent for 'retirement' though her school has not been examined for more than a year, and Mr. Jasper has not been there <sup>in person</sup> for two years.

Two commissions have told me that Mr. Jasper has a vast amount of information about

matters that no one else has, & cannot be spared. But it seems to me that much of this information is personal, and that the Board of Education should not have an officer so valuable that they cannot do without him; the risk of his taking advantage of it is too great. Perhaps the greatest deficiency in this case is that the City Superintendent is so much absorbed by these details that he has either not time enough, or not thought enough to hold the schools to any common standard; they are quite too much what the individual Principal

can make them. This is unfair  
to teachers & pupils, & makes them  
very unequal.

I would add that Mr. Jasper wrote me under date of March 11. 1896, in reference to the violation of the Compulsory Attendance Act, "no fine has been inflicted up to the present time," yet the law is marked "Chapter 67. Laws of 1894."

In view of these matters having come to my personal knowledge, I cannot but think that there are tokens of grave neglect in the management of our Public Schools.

My dear Mr. Mayor:-

I have been asked to write you about the gentlemen who have organized a Garbage Utilization Company and whose bid for that work in the City of New York Commissioner Waring has accepted.

As Director of the Department of Public Works of our city during the administration of Mayor Fitler I had full opportunity to become acquainted with the needs of a large city in this direction and also with the various modes and appliances for getting rid of the garbage. In addition to this fact I know the gentlemen interested in the work, Mr. D. B. Martin being an active Director in our Bank, and the others have been and are now engaged in similar work here.

It gives me great pleasure to recommend their process and to endorse their financial standing, which is ample for any engagements into which they may enter.

Col. Waring and General Collis have known me personally for many years and will, I am sure, satisfy you that any statement I may make can be depended upon.

Satisfied that these gentlemen will render as good service to New York as they have done to Philadelphia I

New York, May 7th, 1896.

Abstract from the Minutes of the Regular Monthly Meeting of the New York Board of Fire Underwriters, held April 15th, 1896.

--O--

The following preamble and resolutions were unanimously adopted:

Whereas, This Board has always regarded the maintenance and use of the 42nd Street Reservoir as an important part of the water supply of this City, standing as it does nearer the congested part of the City than any other Reservoir, preserving any surplus flow of water during the hours when the supply exceeds the drafts for use at other times of the day, thus tending to equalize the pressure and to furnish a more adequate supply at times when otherwise it would be insufficient:

And Whereas, This Board learns with regret that a renewed effort is being made to do away with the Reservoir thus still further restricting the present inadequate supply of water on the east side and in the lower part of the City:

Be It Resolved, That this Board again enters its earnest protest against the removal of the Reservoir, and urges upon all the authorities responsible in the premises that it be retained and used to its

Dear Sir:-

Can you inform me how a permit can be obtained for a blind lady to place a news-stand under the stairs of the S. E. Corner of 116th Street and 3rd Avenue Elevated Railroad Station? I have been informed that a permit must be secured from the Board of Aldermen - if so will you kindly place the matter before them? The person for whom this application is made is worthy of any favor which the City can grant her, and references or any necessary information will be cheerfully given to those who may require the same. Those having authority regarding the property on said corner have already given their verbal consent for this person to sell papers and establish a stand (Allowing her to have a booth built to protect her from the weather etc.) providing the City Authorities will issue a permit. She has no definite way of earning her living, as owing to her blindness she cannot do work as others, and if the scheme already mentioned can be brought to a reality this person will doubtless thereby be made self-supporting - which is the object of this letter to secure if possible a self-supporting avenue for her.

Trusting this may receive favorable and prompt attention,

I am,

Respectfully,

Dear Sir :

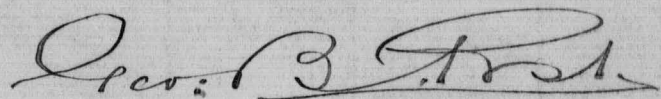

Believing that my position in the matter of the appointment of the architect for the rebuilding of the Tombs has been misunderstood I wish to place myself on record with this explanation.

I was led to believe in consequence of an interview with Mr. Withers, that Mr. Withers had been the regular architect of the Department of Charity and Correction- that in pursuance of his duties he had prepared sketches for the rebuilding of the Tombs. Under these circumstances the ethics of the profession would prevent my taking any steps to secure the appointment. until his claim had been disposed of. In an interview with Mr. Wright I thought I explained this fully.

I have learned that Mr. Withers was not the regular architect of the Commission- that he had not been retained or authorized to prepare sketches.

Hon. W. L. Strong, Mayor. —

Dear Sir:

On or about the 12<sup>th</sup> day of Nov. last I drew the attention of the Police Commissioners to the fact that persons arrested by the Police who may be unable to give bail for their appearance in the Magistrate's Court the next morning suffer great hardships for the reason that they receive no food until after their appearance has been enforced by the Court to which they are brought the next day. — For instance a person may be arrested on Saturday at a few minutes past noon. — Under the above circumstances he is kept without food until perhaps 10 or 11 o'clock on Sunday morning i.e. until his case may

have been imposed of by the magistrate.

These courts are opened at 9 A.M. every day in the year. -

Again - on Sundays or holidays - if a person should be so unfortunate as to be arrested after the courts have adjourned he is kept until the next morning without food. -

What consolation to him that he is found innocent by the Magistrate when his case is called the next day after he has innocently suffered!

Every man is presumed absolutely innocent until proven guilty by a Court of competent jurisdiction; it is therefore but just that everything involving of punishment should be eliminated as far as possible until after the hearing. -

As I have not heard that the Police Commissioners have inaugurated any steps to remedy the evil I complained of to them I therefore take the liberty of thus addressing you on the subject. -

Respectfully

Hon. W.L. Strong,

Dear Sir:-

I am directed by His Honor the Lieut. Governor, acting Governor, to acknowledge receipt of your letter of April 21st recommending the pardon of Frederick Gottschalk, now confined in the House of Correction at South Boston.

The petition for pardon has been very carefully investigated and from the report of the District Attorney His Honor learns that Gottschalk was married about eleven years ago in New York; in six months his wife left him; later he lived with a woman called Mrs. Gottschalk, promising to marry her when he procured a divorce. There is no evidence that they were ever married. They have two children and are likely to have a third. About four years ago Gottschalk became acquainted with the woman whom he

brought to Boston, and has by her one child two years old. She  
will probably ~~be~~ have a second child soon. He left New York about  
Feb. 10th and was arrested the 28th. Between those dates he had  
cohabitated with the woman he brought from New York. She was sen-  
tenced to one year's imprisonment.

Under these circumstances His Honor is of the opinion  
that it is not a proper case for the exercise of executive clemency.  
I think you will agree with him.

Respectfully yours,

Dear Sir:-

I understand that a public hearing is to be had before you at eleven o'clock to-day, in regard to the propriety of your approval of a measure adopted by the legislature authorizing compulsory references in the City Court of the City of New York.

In my opinion the measure merits your approval.

The City Court has heretofore been regarded as a tribunal for the speedy trial of the smaller causes. By reason of the fact that compulsory references, in cases involving the examination of a long account, are ordered in the Supreme Court as a matter of course, I learn that plaintiffs in order to avoid thus disposing of their cases frequently institute such actions in the City Court with the consequence that the calendars of that court are now often blocked for several days in the trials of mere matters of account.

The result of this condition of affairs is that the City Court is now a year behind, as I am informed, in the actual disposition of the cases before it, and unless some change is made in regard to the matter, cases will shortly so accumulate that they will not be reached for trial for two years after the filing of notes of issue.

No reasonable objection can be made to a bill authorizing

compulsory references in cases where merely long accounts are involved, and the public interest demands that the business of the City should not be blocked by cases of the sort referred to.

I hope it will receive your approval.

If not, may I request the return of the memoranda submitted on behalf of my people, containing a statement of some of their grievances against the Department?

I am led to make this request by the direction of the people whom I represent, who seem to think that perhaps after all it is better for them to proceed directly by formal charges against the management. NEW YORK May 9th, 1896

Dear Sir:-

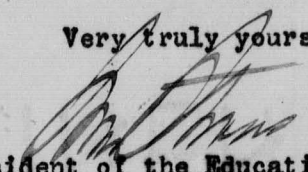

At the monthly meeting of the Directors of the Educational Alliance held last evening it was resolved to thank you, and through you the Board of Street Opening, for the location of one of the small parks authorized by the legislature, in the vicinity of the Hebrew Institute, the building occupied by the Educational Alliance, and I take great pleasure in communicating to you this expression of the obligations which those interested in the work of the Educational Alliance feel for the liberal spirit which actuated the Board in consenting to appropriate the three plots of ground, which I had the honor of advocating before your Board, instead of confining it to the small space of only two of the plots.

I am sure that the tax-payers of this

city cheerfully respond to such improvements.

It is economy in the long run. It not only provides a breathing space much needed in that thickly populated district, but it eliminates from the map of the city one of the spots which is a blot upon our civilization.

Very truly yours,

  
President of the Educational Alliance.

The Honorable Wm. L. Strong  
Dear Sir

Being a public spirited  
citizen of this city and feeling and having a very  
just pride in our fire department, I deem it  
a pleasure to write you relative to the Bill  
or measure recently passed the Legislature, which  
is now in your hands for consideration -

This measure, which is for the increase of  
Salary, is what I consider "an act of justice,"  
as I have investigated the matter and find  
that the officers mentioned in said bill, are  
not paid the same salary or receive the same  
compensation as officers of the same grade  
in the Police Department, which I consider  
an injustice and I presume that you fully  
realize that the Fire Department is entitled  
to the same, if not more, consideration, at  
least to the same compensation in regard

Mayor

Dear Sir;

I understand that a bill  
is awaiting your action which provides  
for an increase of pay to the officers  
of the fire department. I hope  
you may see your way clear to  
approve the bill, if it is a fact  
that salaries in the fire dept

are lower than salaries in  
the police dept. The officers  
of the fire dept seem to me  
to render fully as important  
a service to the City as do  
the officers of the police dept  
and therefore to be entitled  
to equal pay.

Sincerely yours

Honorable, William L. Strong:

Mayor Of The City Of New York.

Honorable Sir:

As a resident tax payer, & representing large taxable interests in this city, I respectfully & earnestly request your favorable consideration & early approval of the bill, now awaiting your action, providing for an increase in the pay of the members of its Fire Department.

It affords me pleasure to state that, in making this request, I not only express my own wishes but the desires of numerous business friends representing extensive holdings dependent for protection against fire & loss of life upon this highly efficient & ever active department.

Reference to its past record for promptness, efficiency, & bravery, is unnecessary & in view of past services & the dangerous duties still to be performed it seems only reasonable that we show our appreciation of this department in the most substantial manner possible.

No estimate of the value of the services rendered by this department can be stated when we consider the lives & property it has saved & the constantly active & extremely dangerous calling of its ever brave & willing members.

Believing that it is the duty of every citizen to see that these men are better paid for the dangers they are constantly obliged to face I feel that you will pardon the liberty I have taken in addressing you upon the subject & trusting for your approval of the measure.

I remain

Yours very respectfully,

Dear Sir:

I heartily approve of the bill introduced by Mr. French advancing pay of officers of our Fire Department, said bill having passed both Senate and Assembly and is now in your hands awaiting your approval, which I hope you will give. Such men as the New York firemen risking, and at times losing their lives, (as was the case with Mr. Shaw) to protect our property, should be well paid, and a few dollars should not, and we hope will not stand in the way of your hearty approval of the bill.

Respectfully yours,

My dear Sir

May I ask if any action  
has been taken regarding the matters set  
forth in my letter of April 21<sup>st</sup> last directed  
to you as Chairman of the Board of Estimate  
and Apportionment?

You may remember that Mr Carpenter  
of the Westchester County Supervisors, Mr  
Robinson, the Secretary of the New York  
Catholic Protective and I spoke with you  
regarding the children committed by  
magistrates to that institution from  
the portions of Westchester Co. annexed  
to New York under the act of 1895 and  
remaining therein at the date of annex-  
ation. Westchester County and New York  
City are discussing the adjustment of  
their affairs and for nearly a year no  
compensation has been paid for these  
children

May I ask you to favor us by presenting  
the matter for action at the next meeting  
of your board if no action has yet been had.

I write you this as there does not appear  
any entry on the minutes of the pre-  
vious meetings of the consideration  
of the matter.

Hon. William L. Strong,

Mayor of the City of New York.

Dear Sir:

I enclose a list prepared by the Governor, showing the bills left in his hands at the adjournment of the Legislature. It shows that Assembly Bill No. 1738, introduced by Mr. Coughlin, entitled

"An act to validate and confirm certain consents heretofore given by the local authorities of cities of the first and second class to the construction, operation and maintainance of street surface railroads therein"

is now in your hands for approval or disapproval. (See the asterisk in front of the number 558.)

This bill was drawn specially to apply to a situation existing here in Buffalo today, and I am informed it does not apply to any other city in the State. For some reason it was not sent to me for approval or disapproval, and the fact that it was submitted to you I discovered by accident.

I do not hesitate to condemn this bill as bad and vicious. It was drawn with intent to deceive, and rushed through the Legislature during the last days of the session, without giving our citizens an adequate opportunity to be heard in opposition to its passage.

As you are in a position where you have some authority over the bill, I most respectfully request you, on behalf of the city of

Dear Sir

I beg to acknowledge your favor of the 9<sup>th</sup> inst. enclosing reply of Secty Briscoe of the Civil Service Bureau. Kindly give your attention to the following and your Honor will readily see the inconsistency of Mr Briscoe's statement. He declared me the first and only applicant for the position referred to when I applied on May 13<sup>th</sup> 95. Mr Briscoe now claims O'Shea requested his papers changed on May 12<sup>th</sup> 95 thereby giving him priority of claim for classification and appointment. Then why were my papers on May 13<sup>th</sup> 95 declared number One on that specified list. I have witness to this declaration by Mr Briscoe. Then O'Shea did not have his papers changed until May 14<sup>th</sup> 95, one day after my papers were filed and on the very day the Board of Electrical Control made requisition for such an applicant. Mr Briscoe gives my papers number 2300 and O'Shea's #114 showing conclusively that he is now rating me from the labor list and after O'Shea numerically, which is incorrect. I did not apply for registration on the labor list but on the specified classification list as "Electrical Wireman's Helper" which Mr Briscoe inaugurated the day I filed my papers May 13<sup>th</sup> 95. I am capable of fulfilling other positions but were I to apply now, imagine my chances for appointment. An injustice has been done me and I trust in your Honor for redress.

New York, May 11<sup>th</sup> 1896

To His Honor the Mayor of the City of New York  
Honorable Sir

a few days ago I received  
a summons emanating from Mr. Hayer, formerly Attorney  
for the defunct Board of Excise, and in the name of the  
Mayor & alderman of the City of New York, for the amount  
of a bond which I don't remember I signed for a liquor dealer  
whose license it seems has been revoked.

Now, your Honor permit me to explain these transac-  
tions of the office of the Board of Excise, and as you are  
an Honorable and just gentleman, and a business man  
of experience, you will see that these proceedings are  
of the greatest and of the most flagrant injustice.

It seems Sir, that for a number of years a law  
has been in existence that a man before getting a license  
must have two bondsmen, and as I have been informed  
now that in case a license is revoked that the bond-  
men were responsible for the amount of the fines; but Sir  
this law has not been enforced for years, and to

New York, \_\_\_\_\_ 189

put it in execution now in a sudden, particularly in cases like mine, is an outrage and a rank injustice.

In the case of the Raines Law, now lately passed, every body has been forewarned of the penalties attached in giving bonds, and every body knows now that the law is going to be enforced; but Sir, who knew it under the old law? hardly any body, I think; and then your Honor, this giving bonds formerly was a mockery, as when I came to the Excise Office, to give bonds for one of our customers, one or more of the clerks of the office requested me to sign bonds for people I had never seen, thus enticing me and coaxing me to do a thing which they ought to have known was wrong, and for which it seems now they want an innocent person to suffer.

What I advance your Honor is no idle talk, I can bring you a dozen witnesses who will swear that papers were brought before me to be signed for strangers I never knew, and the case for which I have been sued is one of them, as I positively state and will make an affidavit and swear to it, that the bond I signed

(if not a forgery) for the person whose license has been revoked, I have never seen or heard from.

Under these circumstances, I friendly request your Honor to intercede for me that this injustice is rectified, as it would be blot to the name of the City of New York to allow such an injustice to take place.

THE MARITIME ASSOCIATION OF THE PORT OF NEW YORK.

NEW YORK, May 12th. 1896.

Hon. William L. Strong,

Mayor of New York.

Your Honor -

This delegation of the Maritime Association of the Port of New York, urges your approval of State Senate bill Number 976, throwing safeguards round Hell Gate pilotage, in the interest of the commerce of this port and of the State.

As President of that Association - generally known as the Maritime Exchange, I would say that it was incorporated by the Legislature of this State in 1874, to look after the Maritime interests of the port of New York. Its membership aggregates 1,185, embracing all classes of commercial activity, foreign and domestic, ocean and interior. In justice to such diverse interests, we can officially act only in such cases as effect them in common.

This is a typical case and those interests conjointly appeal to you to approve this measure so that it may become a law.

We cannot conceive of any reasonable disinterested objection to it. It simply enacts three requirements.

First, an appeal to an official Board in case of overcharge.

Second, that the members of such official Board shall be disinterested.

Third, that Hell Gate pilots, as at Sandy Hook and at all other ports the world over, shall have distinguishable pilot boats.

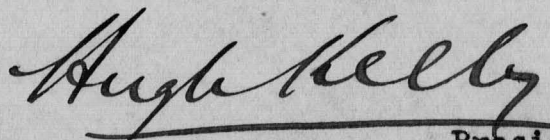

Surely the first two are self-evident to all. The third is equally so to those familiar with shipping.

Hell Gate is approached by navigators with apprehension, because of its tortuous channels, and rapid current, thronged by all kinds of craft, steam and sail, coming and going, singly and in tows.

One object of this measure is to induce Hell Gate pilots, in a healthy competition, to cruise and meet incoming vessels. At present they board them by indistinguishable row-boats from the shore- generally at City Island, the very point where the craft must anchor if they do not attempt Hell Gate.

For the safety of navigation the pilot should not wait until the vessel reaches City Island before boarding her. This measure upon becoming a law will lead to the desired result, with the added incentive of emulation, as the pilot who first offers his services, must be paid by vessels subject to pilotage.

Very Respectfully,

  
President.

Hon. William L. Strong,  
Mayor.

Dear Sir:-

I beg to direct your attention to what I do not consider just treatment from the Board of Health. Some six weeks ago I notified them of a certain nuisance which was being committed on my premises, and which has since resulted in one of the members of my family getting severely sick, but the only thing that was done in the matter was to send an Inspector to the premises, who made some kind of a report to his Superiors, and when I again wrote them they simply wrote me that if I could detect the parties at fault they would prosecute them.

I have tried time and again to find out who is at fault, but have been unable to do so, and I now respectfully ask if you will not kindly use your power and have the Board take some steps to stop this most disgraceful nuisance.

I can assure you that anything you may do in the matter will be most heartily appreciated not only by myself but also by other people living in the vicinity.

It would certainly seem to me that a Board, which will take steps to have expectorating, or spitting as it is now called, stopped on the Elevated Railway, and have notices regarding same published, not only in the newspapers, but in the public places named, should certainly take some action in the matter above referred to, which is far more injurious to the health than simply expectorating in an Elevated Ry. Car, and I will thank you to see that something is done before more serious consequences result.

I have been a resident of this part of the City for years and I think that some consideration should be shown me, and also the other taxpayers who are afflicted with this pestilence.

I am sorry to trouble you about this matter, but it seems to be my last resort as I have tried to have it stopped not only through the Board of Health, but also through the police, but both seem to be wholly indifferent as to the serious consequences which may result from this nuisance, and I have therefore taken the liberty of addressing you in order to get some satisfaction which I think is justly due a citizen and a taxpayer.

I might add that this thing is being committed from the house adjoining mine, No. 303, and although I have made repeated com-

( 2. )

plaint to the owner and agent, they seem to take no action in the matter whatever although they have several times promised to do so.

Thanking you in anticipation, I am Dear Sir,

dare to suggest. I had

Registered at the Christian  
Association, and found their  
transactions perfectly honorable  
but never before has a dress-  
maker been asked to wait <sup>in</sup> an  
office for a days work.

Kindly return receipts to  
me at your earliest convenience  
And I would kindly ask  
to withhold my name ~~publicly~~  
As I should very much like to  
have my money returned as I  
need the same but would not  
like any publicity in the matter  
I would sooner lose it.

Hoping you gave this  
your attention so as they will

be unable to fleece some more  
victims.

Col. William L. Strong,  
Mayor, etc.

My dear Sir:-

I have had called to my attention Assembly Bill No. 1322, introduced by Mr. French, amending the law regarding the acquisition of sites for school buildings, the chief amendment being, as I understand it, to put a time limit to the period within which commissioners of estimate shall complete their work.

The amendment seems to me an eminently proper one. I have had come to my personal notice at least two cases in which there was excessive and unnecessary delay on the part of commissioners appointed to acquire school sites, and where it was almost impossible to escape the conviction that the only reason for the delay was to increase the fees of the commissioners. In one case that I know of, where the property taken belonged to only six different owners and their titles all came through the same grantor, and only one lot was improved, the commissioners sat for nearly one year taking evidence and making their report. Anything that tends to terminate such a scandalous condition of affairs should, it seems to me, receive your approval. Where the title is complicated and the work could not be done within five months, the bill provides for an extension of time on application to the Court, so that, so far as I can see, no evil would result from fixing a definite term within which the commissioners should act, as the time can be extended in every proper case. I trust your Honor will approve the bill.

*Yours very truly*

My dear Mayor. Legislative bill calling for tunnel or archway under Aqueduct at Burnside Tr. is heartily approved by my constituents.

The late, Hugh L. Camp was a warm supporter of the measure.

It is a necessary work and I respectfully urge that you approve it.

Sir:

The above association kindly requests you, to help ~~me~~, to abate the nuisances which have of late become almost unbearable to wit: The pasting of bills on ash cans and fences, and the ball playing in the streets. As to the latter, our members have repeatedly had occasion, to witness bodily injuries to pedestrians and children, not to speak of the damages done to house owners by broken windows etc.

A request on your part to the Police Commissioners, to stop such nuisances, will do more good and bring about a speedier result, than all the complaints made by our association to the various Police precinct commanders.

EAST RIVER GAS COMPANY

OF LONG ISLAND CITY,  
No. 32 NASSAU STREET.

Mutual Life Building,  
Room 906.

New York, May 15th, 1896.

Hon. William L. Strong,

Mayor:

Dear Sir,-

I beg to call to your attention for such action as may be proper the following situation in regard to negotiations which the East River Gas Company has had with the Commissioners of Charities and the Commissioner of Correction for the supply of gas to all the buildings and lamps now on Blackwell's Island.

The East River Gas Company is so situated by reason of its tunnel as to be able to give a good and adequate supply of gas of first rate quality to these buildings and some time since entered into negotiations with the former Board of Charities and Correction for a contract to furnish this supply. These negotiations continued until finally the present Board of Charities and the Company agreed upon a basis acceptable to both parties for the lighting of these buildings and a contract was drawn by the Corporation Counsel and finally executed by the Commissioners of Charities and the Company. The Company at that time as well as the Board of Commissioners acted upon the supposition and impression that the matter lay within

the jurisdiction of that Board, and upon the signing of the contract the Company expended about \$2,000 and performed a great deal of work involving the boring of a hole on Blackwell's Island, 150 feet deep, so as to make the proper connections with the tunnel so as to furnish gas at a moment's notice. As, however, under the division of the jurisdiction and duties between the Commissioners of Charities and the Commissioner of Correction, under the Statute separating the Departments, the matter of making and supplying gas to all the institutions on the Island is put in the charge of the Commissioner of Correction, the Company upon discovering the apparent error of the position it had acted upon, began negotiations with the Commissioner of Correction to supply him with its gas to be furnished by him to the various institutions.

The Gas Company now understands that the Commissioner of Correction defers to your Honor's judgement and decision in this matter as to whether he shall supply these institutions for any period with gas purchased under contract from this Company.

The gist of the proposed contract with the Commissioners of Charities was that the Company should supply the gas through separate

meters at different points on the mains already laid at the rate of 92 1/2 cents per thousand cubic feet. The Company would be glad to make a contract with the proper authority upon this basis or to supply gas to the gas holder on the island at 85 cents per thousand cubic feet.

We believe that the quality and quantity of the gas supplied under the present system to the buildings used by the Board of Charities has been the source of great annoyance and complaint and that the plant is entirely insufficient to give gas to these buildings adequate either in amount or lighting power.

In regard to the institutions under charge of the Commissioner of Correction as for example prisons, we believe that the amount of light required in those buildings can be obtained by the consumption of much less of the gas of this Company than that now furnished. The Company guarantees to furnish gas of twenty-six candle power and we believe the cost to the City will not be in excess of the present arrangement.

It has been suggested that the Company be allowed a trial of thirty days in supplying gas to all these institutions on the island upon the basis of the agreement as made with the Commissioners of

Charities. The Commissioner of correction has informed us that he has no objection to such an arrangement if your Honor will advise it.

Trusting that your Honor will deem it proper to advise this thirty day trial, I am, Dear Sir,

Yours very respectfully,
