COMMISSIONERS' OFFICE.

January 1st,

1895

Hon. William L. Strong,  
Mayor, &c., &c.

Sir:--

On the 1st of May, 1893, without solicitation on my part Mayor Gilroy appointed me to the position of Commissioner of Public Parks. I regarded the appointment as a high honor and entered with enthusiasm upon the performance of the duties of the place. Since then I doubt if any business man in our City has given more time and attention to his personal affairs than I have to the hard and exacting work of the Park Dept. So true is this that important interests of my own have seriously suffered in consequence. Still I was willing to make the sacrifice if by doing so I could have served the City to the satisfaction of my fellow citizens. Unfortunately for me, if the public prints be an index to the public mind, I have failed in this ambition. To this failure two things have contributed: First, but in a minor degree, the legislation which compelled the Park Board almost at a moment's notice, without

plans, without preparation of any sort, to spend economically for the immediate relief of the clamorous poor, and yet for the lasting betterment of the Parks the enormous sum of one million dollars. I submit that the man who can solve such a problem to the general satisfaction has yet to be born.

The controversy in regard to the Harlem River Speedway has been another fruitful source of trouble during my term of office. My conception of the matter - the conception also of the majority of my colleagues - was that we were called upon by the law to build a course - a race-track if you will - upon which fast horses could be speeded without fear of interruption. Ex Park Commissioner Paul Dana took a different view of the matter, and, without ceasing, he has made war, and incited in all directions other people to make war upon me and those of my colleagues who were not of his mind. With this action, I can, of course, find no fault; at least it must be admitted that Mr. Dana has the courage of his convictions, and that he is

an open foe. I cannot say so much for some of the eminent artists and others who have so harshly criticised me and my associates in connection with the driveway question. The trouble with them has been that they did not know what they were talking about. Most of them have never even seen the Harlem River Speedway, and even Mr. Frederick Law Ormstead who is the chief exponent of their views calmly admitted at a public meeting of the Park Board that he understood that the speedway was situated on the top of the Harlem River heights, while as a matter of fact it is now being constructed upon piles and retaining walls on the very edge, and in places out into the river itself. So much for the artists and the "Landscape Architect", whatever that newly coined term may mean. As for the so called "horsemen" who first came to my associate Judge Tappan and myself importuning and entreating us to take the stand which we did take, and ~~afterwards~~ <sup>recently</sup> asked the Mayor to remove us for taking that stand, I embrace this opportunity of saying that for them I entertain that wholesome contempt

which all straight forward men must feel for trimmers and time servers. And now, Sir, without going into further details as to the difficulties which I have encountered while conscientiously trying to perform the duties of a Park Commissioner, I hasten to say that I am a Democrat and attached to an organization which is opposed to you politically. The people by whom you have been elected expect that you will bring about a very great improvement in the City Government. In the attempt which I am sure you will make in this direction, it seems to me that you would be hampered by having at the head of one of your most important Commissions a man of my political predilections. In justice to you then, as well as in justice to myself, it gives me very great pleasure to resign to you the position of Commissioner of Public Parks. Such resignation to take effect as soon as my successor is appointed. At the same time as a life long resident and tax payer of the City of New York, proud of my city and always anxious for its growth and progress, I bespeak for you and for your ad-

HON. WILLIAM L. STRONG,

MAYOR.

Dear Sir:

I have the honor to acknowledge receipt of letter from your office under date of 24th instant, enclosing for report a communication from Charles H. Baxter, President of the Union Veterans' Protective Association, charging violation of the provisions of Chapter 716 and 717 of the Laws of 1894.

In reply thereto I beg to say that this Department has not violated the law, but has always considered the applications of Veterans, and done all possible in the way of appointing them to vacancies. The two carpenters specially referred to were men who had been in the employ of the Department and who were temporarily laid off by reason of the condition of the appropriation during the last months of the year; they were men of long experience in special lines of work, whose services were of more value to the Department than ordinary mechanics, and the Commissioners therefore felt justified in reinstating them. To a large extent the work of this Department is of a special character, and it would seem but

His Honor, Mayor Strong,

*Dear Sir*

At a regular and not at a secret meeting of the Board the applications for renewal of leases of Clermont (Claremont) Hotel in Riverside and of McGown's Pass Tavern in Central Park, were received and laid over for further information as to repairs and expenses proposed to be incurred by the lessees in case of renewal.

At a subsequent meeting, three Commissioners being present, the renewals were ordered on the following grounds:

The Houses are unexceptionally kept by the lessees. The rent is fair and promptly paid. The lessees make all repairs. They own all the plant, furniture, &c. involving a large expenditure. It is unreasonable to suppose that a new comer would improve the service or serve the public any better and probably not as well as the present occupants.

The establishment being primarily for the public convenience and being well conducted every way by men of experience, it is for the best interests of the public that no change be made.

OFFICE OF POLICE.

February 19th, 1895.

Mr. Charles DeF. Burns,

Secretary, D. P. P.

Sir:

In pursuance of instructions received, I have investigated complaint of Mrs. Federlein, and find that the officer referred to is Martin Gallagher.

The officer admits having asked the boy to go for some kerosene oil for use in an oil stove which he keeps in the gate box for the purpose of warming his tea, of which he partakes in the middle of his tour.

The boy came in the gate, according to the officer, about 9 o'clock A. M. on the day mentioned, and when the officer asked him to go for the oil, the boy said that he wanted to go skating. Gallagher told him that no one would be allowed on the pond for some time, as it was being cleaned, and that he would have ample time to go and return before the pond would be opened. The boy then went for the oil.

Gallagher denies having used any language which could be construed as a threat, and says that the boy was certainly mistaken in saying that his going on the pond was made conditional on his going the errand. No such thing was intended or said.

I consider that Gallagher erred in asking any child to go on an errand, and have severely reprimanded him for the same.

If Mrs. Federlein desires to prefer a charge against him, it will be necessary for her to submit an affidavit set-

Dear Sir:-

Referring to enclosed letter from the Mayor's secretary, we beg that you will appear before the hearing on Assembly Bill No. 1351, and oppose any increase in the salaries of the Park Police.

The Park Police, considering their duties, are extremely well paid, and there are always a large number of applicants for positions.

As we understand it, this bill would increase the cost of our police nearly \$ 70,000 per year, and in our judgment this would be an entirely unnecessary expense.

ARGUMENT OF C. C. SHANE

May 14/95

in favor of THE PARK POLICE BILL before  
HIS HONOR, MAYOR STRONG.

MR MAYOR: Everyone whose good fortune it was to witness the Park Police Parade last week must have felt proud that he lived in a City which possessed such a magnificent Park. I have visited all the principal Parks in the large cities of Europe, and I must say that there is not one in Europe which compares in grandeur with our own Central park. Those whose good fortune enables them daily to visit the Park, whether in their carriage, on the bicycle or on foot or on horse-back have a conscious feeling of safety when they know that at any moment they can call for assistance upon the best Park Police in the world.

The citizens of New York are not only proud of their City and its parks but they are also proud of their Police force. No city can boast of a better Police organization than the City of New York. Here any citizen can walk the streets, day or night, fully conscious that his property and person are protected, and what a satisfaction it is to possess this feeling. I was pleased with them during the past week, when your Honor reviewed them. The mark of intelligence was stamped on their faces, and they were a handsome lot of fellows. Show me a man who has a proper regard for his appearance, and as a rule, I will show you a good officer. Not only were the Officers well dressed, but the horses presented

an appearance of which we were all proud. Now, if we would have good public servants, we must pay them for the services they render. Not only should we pay men for their time, but also for certain risks they take. Then, too, intelligence should be rewarded. I do not believe there is a more intelligent lot ~~is~~ of men, and certainly not a better looking body of men in any Police force in the world than our own Park Police.

Now I ~~understand~~ <sup>am informed</sup> that your Honor is called upon to endorse a bill which has passed the Senate and Assembly. The bill, as I understand it, is for the purpose of paying these men their just dues for the service they render. The bill which your Honor is called upon to endorse does not change or disturb in any way the method or extent of the present Park powers. It merely ~~declares~~ <sup>declares</sup> four grades of service for park Patrolmen instead of two as at present, based upon the length of service, and it prescribes and increases ~~the~~ the salary for Patrolmen, the maximum increase being \$200.00 a year for those of greatest length of service, and for the mounted force an increase of \$150.00 per year. It increases the salary of Roundsmen and Sergeants \$100.00 a year respectively; it makes no change in the salary of Captain, ~~and I will~~ call your Honor's attention to the fact that the increases here asked for are in each case \$100.00 a year less than that paid to men of similar rank and grade in the Municipal Police force. It will be well to call your attention here to the fact that the Police reorganization Bill prepared by The Committee of Ten contemplated

the merging of The Park Police with that of the Municipal police which would have given them in the event of its passage a greater increase in salary, coupled with what they, from experience well know would be less arduous duties. In the light of this fact I cannot well see how any fair minded <sup>Citizen</sup> ~~man~~ can deem their request as exacting or unfair. Some of the many reasons which may be urged in the advocacy of the Bill is that their salary should be equal to that paid to the Municipal force, for the reason that their work is equally as difficult and dangerous; their qualifications are quite, if not more, severe than theirs. Their expenses for living, uniforms, and so forth are great, and during the past sixteen years their salaries have never been increased, but have in reality been diminished. Years ago, when what we call <sup>now</sup> ~~now~~, the Park Police were then called gate-keepers, and Park Keepers, they received \$3. per day and their uniform furnished them; now they receive only \$1100.00 per year and the men furnish their own uniform, thus leaving them scarcely \$1000.00 per year for their services. During the past 8 Years over 3000 acres have been added to The Park Department jurisdiction, and there have been no increase in the number of patrolmen, so that the duties incident upon that great acquisition of territory have been very largely increased. During the past five years it has been the constant aim of our City authorities to furnish free concerts in our City Parks. Upon all these occasions these faithful men are called upon to serve extra turns

of duty outside of their regular tours for which they receive neither recognition nor compensation, being required, as I am informed to spend four and five nights out of every week on duty at various City Parks between the first day of May and the first of November. Further, between these dates they are not allowed one single days vacation, and during the whole time instead of serving the eight hours which popular conception and opinion believes to represent the full extent of their active duty, they are actually required to serve from 11 to 12 hours. During the winter months when skating is in vogue these men are detailed to duty at the various lakes where the duties are of the most severe and exacting kind, and where exposure and risk is very great. Now I call particular attention to this, your Honor, because as I understand, stress has been laid upon the fact that the Park Police officers duty calls for but eight hours active service every day. Assuming this to be the fact, it is well to remember that between the arrests and the amount of time consumed in bringing their prisoners to the various Police Courts, extra tours for concerts, public parties, and celebrations in Summer, and ice duties in winter these frequently make the duties of The Park Police more than 12 hours per day. This is not as in the case of the Municipal force regulated by six hour shifts but most if not all of it is performed in continuous stretches of duty of from 8 to 15 hours duration. Now this is not generally understood. I did not know it until the other day that these men worked so many hours.

The Surgeon's Report and Hospital records show that the average for sickness and accident in the Park Police Department exceeds that of the Municipal force by a large percentage. Diseases such as rheumatism,, pneumonia, la grippe, and diabetes, all resulting from the peculiar kind of duty, in damp and exposed walks and roads in the Public Parks, and the risks, which especially mounted men are subjectv to upon drive ways, all clearly show the reason for such excess of Hospital and Surgeon cases over those of the Municipal force.

A case in point. I am informed that a Park Policeman is credited with having stopped 67 runaways, saving thereby the lives of many persons and always at the risk of <sup>his</sup> ~~their~~ own, and another has saved several from drowning in Central park. These are but ~~two~~ instances of many which might be cited.

There have been many deaths and <sup>many</sup> members of the force are now suffering total disablement incurred in the discharge of their duties in our Parks. I maintain that the risks and the danger of The Park Police exceed that of the Municipal Policemen and that in their tours of duty through the Park and roads they are exposed to the inclemency of the weather more than any of the Officers in the City tours can possibly be . All this I hold, Mr Mayor, brings into full effect the application of the adage that "the laborer is worthy of his hire", and I claim that they do not receive by several hundreds of dollars per year the amount which their ability, character and service entitle them to .

Let us pay our Policeman and our Firemen all that they are fairly entitled to. The Park Police to-day are not receiving the just compensation for the services they are rendering in this City.

When our little children go into the Park as they do by thousands every pleasant afternoon, the mothers feel they can trust the little ones away because they are watched over by ~~these splendid men~~ the park Police. As guardians alone of the lives and safety of ladies and children in our Park these men are called upon for the exercise of the finest gifts of discretion and judgment.

I am quite sure, Mr. Mayor, that I voice the sentiments and express the feelings of every man and woman in the City who enjoys our grand park, when I say we proudly point to the records of our Park Police.

Now your Honor knowing as I do, that you want justice done believing that it is in the line of reform to raise men's salaries when you know that they are worthy of it, I ask you to endorse the Bill now before you. By doing that our park Police will have justice done them and the citizens of New York will not be accused of withholding that which is due.

Let us pay our Policemen, pay our firemen, and pay all who are employed by our City whatever we believe they honestly earn.

If we are to economise let us not do it at the expense of the Park Police. They have not had their just dues for many years, ~~and~~

is it not time to do them justice? I trust your Honor will prove

Dear Sir:— At about 5.30 yesterday afternoon (May 9), as I approached the north steps of the foot bridge leading from City Hall Park to the Brooklyn Bridge, I saw a Park policeman rush upon and seize two men who were vending flowers. He caught each by the sleeve near the wrist, began jerking them violently about, and each time he swung them around in range he administered a violent kick. One of them he kicked with all his might at least ten times; the other got loose and he made no effort to recapture him, but started across Park Row with his prisoner, evidently to take him to the police station. From first to last neither of the men made the slightest resistance, and the arrested man still held his bunch of flowers in his hand as

he went with the officer. The assault was witnessed by fully 500 persons, and traffic on the stairway was stopped and the side of the footbridge lined with people watching the disgraceful spectacle, frowning and commenting on the brutal exhibition. One or two gentlemen remonstrated with the officer, but what his replies were I do not know.

I regret now that I did not follow the officer and obtain his number; but I could easily identify him, and am willing to give my testimony against him.

The flour venders at this point are, during the rush hours, a nuisance, and should be kept away; but, of whatever offence these men may have been guilty, there can be no possible justification of an officer assuming punitive powers, and, least of all, exercising them in so public and brutal a manner. My indignation was deeply aroused, and I was ashamed. I am ready to help in preventing the possibility of such another spectacle.

My Dear Sir:

Will you please have one of the other members of the Board of Street Opening take my place on the committee on the opening of Longwood Avenue. I find that it will be impossible for me to get rooms on the steamer sailing two weeks from to-day, and am therefore sailing to-morrow. I expect to be gone but a very short time, and if this matter remains open, will take it up at once on my return.

Rev. Frank Mason North, D. D.,

# 150 Fifth Avenue.

Dear Sir:-

Your communication relative to a proposed meeting in Tompkins Square has been forwarded by his Honor, the Mayor, to this Department.

In reply thereto I beg to say that it has been the policy of this Department for many years to uniformly decline to issue permits for meetings in that park. A large element of socialists and anarchists live in that vicinity, and it has been frequently found necessary, in the interest of public safety, to refuse the organizations representing them the privilege of meeting there. This Department is very unwilling to establish what might be considered a precedent by these people in insisting that permits be granted to them for public meetings at that point. There are, however, very good facilities for holding public meetings at Union Square, and we would be happy to issue a permit to you for that park for any date that you desire, if that will answer your purpose. Kindly let me know,

Respectfully,

Referring to our recent conversation, I have to say that I find the list of desired appointments under date of May 1st. Hon. W<sup>m</sup> L. Strong  
Mayor City of New York  
Dear Sir

I wish to call your attention to what is taking place in City Hall Park during the day but more so after dark. My attention was attracted on Friday evening June 7<sup>th</sup> by something I saw while crossing the Park from the Bridge to Warren St, and I thought that I would investigate the cause, and I have kept up my investigation until last night and the following is what I found. I found a band of thieves and well organized in every way. They are protected in every way by the

2

Park Police (If they are not protected  
then the Police are more than stupid)  
for what is done they see and  
pay no attention to it whatever.  
I dressed my self for the work  
I had in hand, and in that way  
I was able to mix in with  
the gang and talk with them  
and listen to what they were  
talking about, and also to learn  
the names of some of them.  
I am sure that the Police are  
in some way interested in the  
evil being of these thieves for  
they say that they are all right  
with the Cops, and from what  
I have seen I think it is true.  
One of the gang said he had  
made over 115.00 dollars last  
week and another had a fine  
gold watch and diamond stud  
to show for one nights work

and it was all made in  
City Hall Park. The names  
by which some of these people  
are known are Jerry the Mick,  
Geo. Baker, Chappie Livingston,  
Reddy the Boot-Black, Josh,  
The Skinny Jew, &c. The Police  
know them by these names for  
I have had them address the  
several ones using the names  
I have given you. On last  
Thursday evening I saw one of  
the gang follow a gentleman  
from the Bridge entrance of the  
Park over to Broadway and Nassau St.  
asking for money and when  
it was refused, he struck  
the gentleman in the face and  
walked back into the Park,

How I do know that a person  
can the nature of it but did  
nothing in the matter  
they will find that what I have  
written is only too true. Have  
you men dress like the people  
they are looking for and they  
can then mix in with them  
and hear what they have  
to say.

Yours Respect-  
A Citizen

Now I do know that a Prisoner  
saw the whole of it, but did  
nothing in the matter, any  
more than to stand and laugh  
and talk with the thief. Friday  
evening at half past eleven o'clock  
a gentleman crossing the Park  
was asked for money and  
when he refused the thug  
followed him into a Broadway  
Car and called him every name  
he could think of, then he jumped  
off the car and walked back  
into the Park and had a  
nice talk with one of the  
Park Police. You may think  
that I am putting it in a  
very strong way, well all  
you have to do is to place  
a few men you can trust and  
who will tell the truth, in the  
Park in Citizens clothes and

In reply to the communication sent by "A Citizen" to his Honor, Mayor Strong, I would respectfully state that I have caused Sergeant Fitzpatrick to make a most rigid investigation of the statements made therein, and he reports that there is no truth whatever in the letter, as far as it relates to the Park Police.

The officers at present doing duty in City Hall Park, are in their first month at that place, and have shown considerable industry in ridding the park of peddlers, &c.

If the person signing himself "A Citizen" were acting in good faith, I think he would not have sent an anonymous communication.

Dear Sir:

Replying to your letter of the 3rd inst. which was referred to this Department by his Honor, the Mayor, I beg to say that we have a report from the Entomologist of the Department upon a complaint similar to yours, in which he says that he is doing all in his power to keep the insects in subjection; that they never were worse than they are this year, and that with the small force at his command, it is impossible to cover all the city parks as they should be. He states that he is working overtime to subject them, and will at once attend to the trees in the down-town parks, including Bryant Park, and do the best he can to check their ravages.

CITY OF NEW YORK,  
DEPARTMENT OF PUBLIC PARKS,  
ARSENAL, CENTRAL PARK.

July 31st, 1895.

My dear Sir:-

I had hoped to call on you to-day, but have been detained all morning at the Park Department, where there is a great deal of detail to look after. I have been there for a part of every week this Summer; and am just starting for a little yachting trip as far as Bar Harbor, where my address will be care of "The Louisburg." Mr. Juilliard is away at present, but will be here next week.

I regret Mr. King's continued absence, on account of the very serious illness of his wife necessitating an important surgical operation, but so far I think nothing has gone wrong.

I trust your visit to Richfield has removed all traces of the gout, and that you will not allow your public duties to interfere with your personal health and happiness.

Very sincerely yours

Hon. W. L. Strong.

My Dear Sir:

I have your letter of August 30th and beg to thank you for the kind words contained therein. I hope to get down to see you in the course of a few days, after I get things to rights in the Department. It will give me pleasure to go down with you to spend a night at Elberon the week after next, if that will be convenient to you.

Very sincerely yours,

Hon. William L. Strong.

Hon. William L. Strong,  
Mayor.

Dear Sir:

I beg to acknowledge receipt of a letter from your office under date of the 12th instant, enclosing a communication from F. S. Jerome, concerning a charge which he brought against Park Policeman John F. Mooney, and to say in reply thereto that the charge referred to by Mr. Jerome was heard in October, 1894, by the predecessors of the present Board of Park Commissioners, and the records show that decision was reserved, pending the determination of a civil action brought by Mr. Jerome against the officer in the same matter. I am informed that the reason for reserving decision on this charge was the unwillingness of the Commissioners, in view of the conflicting testimony, to do anything that might possibly influence the decision of the case by a jury.

Mr. Jerome's letter is herewith returned.
