PEOPLE ON MY COMPLAINT,  
VERSUS

William Messer.

As complainant in the above case, I beg to recommend the defendant to such leniency and clemency as the Court and District Attorney may see fit to show; but I expressly assert that my reasons for so doing are not controlled by any advantage to myself. I made the complaint against the defendant for stabbing my daughter. I now desire to withdraw the complaint on grounds that the defendant had no intention of hurting my daughter. The defendant and another boy were fighting on the street and my daughter went between them to separate them, and in that way was hurt. It was purely accidental. And I respectfully ask permission to withdraw the Complaint.

## UNITED STATES PATENT OFFICE.

HENRY M. MORRIS, OF BROOKLYN, NEW YORK, ASSIGNOR TO JUAN ANTONIO BANCES, OF HAVANA, CUBA.

TRADE-MARK FOR CIGARS, CIGARETTES, AND SMOKING-TOBACCO.

STATEMENT and DECLARATION of Trade-Mark No. 10,554, registered August 28, 1883.  
Application filed July 24, 1883.

### STATEMENT.

*To all whom it may concern:*

Be it known that I, HENRY M. MORRIS, a citizen of the United States of America, residing at Brooklyn, in the county of Kings and State of New York, and doing business at New York, have adopted for my use a Trade-Mark for Cigars, Cigarettes, and Smoking-Tobacco, of which the following is a full, clear, and exact specification.

10 My trade-mark consists of the words "De Partagas y Ca." and "Flor de Tabacos, Habana," also of the two ellipses, one within the other. These have generally been arranged as shown in the accompanying fac-simile. The words "De Partagas y Ca." are placed within an ellipse, and the words "Flor de Tabacos, Habana" surround said ellipse, and the whole is surrounded by or inclosed within a second ellipse.

20 The word "Habana" may be omitted or changed without materially altering the character of my trade-mark, the essential features of which are the two ellipses and the words

"FLOR DE TABACOS, DEPARTAGAS Y CA.," the words "Flor de Tabacos" being between the two ellipses, and the words "De Partagas y Ca." inclosed by the inner ellipse.

This trade-mark I have used continuously in my business since 1877.

The class of goods to which this trade-mark is appropriated is cigars, cigarettes, and smoking-tobacco, and the particular description of goods comprised in such class is cigars, cigarettes, and smoking-tobacco. It has been my practice to stamp or brand it upon cigar-boxes, and to print it with ink of all colors on labels, which labels I inclose with or paste upon or attach to said articles, or on the boxes or cases containing them.

In testimony whereof I affix my signature in presence of two witnesses.

HENRY M. MORRIS.

### DECLARATION.

State of New York, county of New York, ss:

HENRY M. MORRIS, being duly sworn, deposes and says that he is the applicant named in the foregoing statement; that he verily believes that the foregoing statement is true; that he has at this time a right to the use of the trade-mark therein described; that no other person, firm, or corporation has the right to such use, either in the identical form or in any such near resemblance thereto as might be calculated to deceive; that it is used in commerce with Spain,

and that the description and fac-similes presented for record truly represent the trade-mark sought to be registered, and that he is a citizen of the United States.

My dear Sir:-

The People vs. Molins.

I have just been informed by a messenger sent by Mr. Molins, who is quite ill and confined to his house, that steps are being taken to have this case tried at once. The questions involved are of vast importance to a large number of people in this City, and as the validity of the trade mark in question will be attacked, the case is ultimately sure to go to the Court of Appeals if a conviction is in the first instance obtained. I mention these facts so as to impress upon you the importance we attach to the case and the reason we desire to have ample opportunities of trying it carefully. Mr. Molins is at present ill and will be unable to transact business for some days to come, and the nature of my own engagements is such that I shall be unable for at least a week or ten days to give the matter my attention, in consequence of which I am constrained to beg of you that the case be not placed upon the calendar for trial before the January Term. I think the case should never be tried in the position in which it is at present, but fully appreciate that you are inclined to differ with me, and hence can only ask that we now be given some little time to prepare, or as I should say, to re-prepare.

Hon. R. B. Martine.

I remain, very truly yours,

*William B. Ellison*

P. S. I have this moment for the first time learned that the case was upon the calendar this morning, being so informed by Mr. Sullivan whom we retained to look after the technical matters of criminal practice. I shall endeavor to furnish the Court with evidence of Molin's illness tomorrow morning, as I am informed that the case stands adjourned till that time. I earnestly hope you will not force the trial of this case upon me at the present time. Kindly let me have a reply this afternoon.

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator, who is usually a member of the research team. The investigator will identify the problem by looking at the data and trying to find out what is going on.

2. The second step is to formulate a hypothesis. This is a statement that the investigator believes is true. It is usually based on the data that the investigator has seen.

3. The third step is to design an experiment. This is a plan that the investigator will use to test the hypothesis. It usually involves a series of steps that the investigator will follow.

4. The fourth step is to conduct the experiment. This is where the investigator actually does the experiment. They will follow the steps that they designed in the previous step.

5. The fifth step is to analyze the data. This is where the investigator looks at the results of the experiment and tries to figure out what they mean.

6. The sixth step is to draw a conclusion. This is where the investigator decides whether or not the hypothesis was supported by the data.

7. The seventh step is to write a report. This is where the investigator writes up what they did and what they found.

8. The eighth step is to present the results. This is where the investigator shows their results to other people.

9. The ninth step is to discuss the results. This is where the investigator talks about what they think the results mean.

10. The tenth step is to publish the results. This is where the investigator puts their results in a journal or other place where other people can see them.

Mr. William B. Ellison,

Dear sir,

In reply to your letter of inquiry in relation to the above case, the District Attorney instructs me to state that he is of the opinion that no trial should be had until the title to the trade mark in question is determined by the civil courts. The title is now in dispute. If the criminal court undertook to try the case, it would first have to try the title to the mark. This would involve a long, tedious and unusual investigation by the Court of General Sessions, as to user, to the exclusion of all others, on com-

Plaintant's part. The case will not be tried  
in June, nor do I now see any likelihood  
of its being disposed of until after the  
summer recess.

Yours very truly,
