

Gilbert R. Hawes,  
Attorney & Counselor at Law,  
120 Broadway, Equitable Building,

New York, Sept. 27th, 1895.

Hon. Wm. L. Strong,

My dear Mr. Mayor:

Your favor of the 19th inst., in matter of proposed investigation by Commissioners of account was duly received. I note what you say, namely: That you have decided that this investigation should properly be conducted by the Corporation Counsel's office, and Mr. Terry thinks that there will be no expense attached to the investigation if it is prosecuted by one of the Deputies to the Corporation Counsel, and in conversation with Mr. Scott he thinks that he has got just the right man for it in his department.

There have been several sessions already, and I notice by the reports in the newspapers that no one has appeared from the Corporation Counsel's office, and the "right man" for the place whom Mr. Scott had in mind, has not materialized. The consequence is that Mr. Terry has been obliged to assume the double function of Judge and Advocate, and has been obliged himself to examine the witnesses. As there is no counsel present on behalf of the Commissioners, he has ~~been obliged to~~ refuse counsel for the accused the right of cross-examination. This may operate to the serious disadvantage of the Commission, and lessen the value of their investigation as ~~there~~ will tend to create a sympathy for the parties against whom charges have been made, even if the Courts do not hold that such a course is illegal, in not allowing them to be represented by Counsel.

I explained all this to you in my former letter, and I certainly think it is a "penny-wise, pound-foolish" policy to conduct an important investigation of this kind without allowing competent counsel to take charge of the same. The duty of the Commissioners should be confined solely to receiving the evidence and passing upon the various questions that may arise. With the large appropriation which has been made by the Legislature for this purpose, and which is at their disposal, there ought to be no difficulty about employing counsel, especially as the Corporation Counsel has shown either indifference or inability in the matter.

For the credit of your administration, and in order that this investigation may be carried on in such a way as to produce the best results, I hope you will accept my suggestions in the friendly spirit in which they are offered.

I am, as ever,

Faithfully yours,

Gilbert Ray Hawes.

To the Hon Mayor,

New York, City.

My Dear Sir:-

Doubtless you are besieged with enquiries touching the matters herein referred to, and were you to answer them all, much of your valuable time would be expended in replying; however, there being some information that I am desirous of obtaining, and knowing of no other source through which same may be had except through you, I take the liberty of addressing you, and trust that it will meet with your consideration. I have been employed to look after the interest of one of the heirs of the Robert Edwards estate, accounts of which have been graph-

Your attention to this will be greatly appreciated, and if it is ever in my power to return the favor, I assure you, nothing will please me more than to do so.

Awaiting your early reply, I remain,

Mr B L. Burrows,

Dear Sir:

Your letter of the 26<sup>th</sup> duly received informing me of the complaint of Mary McCarthy and I wish to state in reply that instead of it being a case of injustice to the lady it is a case of injustice to me.

The Lady in question bid on an assorted lot of tobacco and after the sale she was told by somebody that she paid too much for it and woman like she tried to browbeat me into returning her money after which she became very abusive, and I refused to hold any further conversation with her.

Having satisfied her claim and regretting the trouble caused through her ignorance I remain

HON. WILLIAM L. STRONG,

Mayor of the City of New York.

Dear Sir:-

We, the undersigned, respectfully beg permission to call to your attention the fact that all building operations in the City of New York at the present time, and for some time past, have been seriously affected, (resulting in great loss and inconvenience to the public generally) owing to the obstructive methods of the Building Department.

It is our request that the entire matter of the relations of the Building Department to the public, its methods, its capacity for work, and its efficiency, should be made the subject of an immediate public investigation. We do not wish to make charges of personal inefficiency, but the fact remains that the present methods (either owing to inefficiency of the officials, to the lack of proper funds and proper facilities, or the insufficiency of the staff, both in number and ability, or perhaps owing to all of the above reasons) have produced a state of confusion and of obstruction which has never before existed in the City of New York.

There is absolutely no evidence that any benefit is being derived from these obstructive methods, and there is positive evidence that investors, builders, architects, supply men, and building generally are suffering very serious damage. In view of the fact that the amount of building, owing to the hard times, has been much below the average in the last two years, this condition of affairs is all the more serious; especially at a time when building operations are reviving, and should receive every encouragement.

We respectfully request that you appoint a Commission consisting of architects, contractors, engineers and lawyers, selected from the leading men in the different professions, to

make a thorough public investigation, and report to you upon the present condition of affairs, and offer suggestions for immediate relief, or that you pursue any other course which according to your own judgment will furnish the relief which is so much needed.

Hon. Mayor Wm. L. Strong,

My dear Mayor :-

We are so badly off for water at University Heights owing to the insufficient main on Macombs Dam Road, and the inability to get a larger main until certain street improvements are made, that we cannot even sprinkle the track upon our Ohio Field so as to get it settled down once for all. We have taken pains to consult with Commissioner Haffen, who says that he could turn a City watering cart from the Macombs Dam Road into our grounds, if permission were granted by the Mayor through the Corporation Counsel. Inasmuch as we are serving the public here, and are suffering from lack of energy or wisdom or some other quality in the Street and Water Works Department, we feel that it would be just and right for the City to help us with this slight service. Not more than a few hours work would be required which we are quite ready to pay for, even if done as extra hours by the watering cart men. Commissioner Haffen says he will attend to the matter if there is sent him simply a permission to serve the University of the City of N. Y. for not over one or two days with a watering cart and a roller from the adjoining streets in the 24th Ward.

Very truly yours,

Honorable Sir:

I passed an examination for gatekeeper in the Department of Charities and Correction. Although I was 17th man on the list, Commissioner Robert J. Wright has appointed 21 men without appointing me. Commissioner takes lessons from Tammany Hall or such political loafers like Cornelius Van Cott. When the Department of Charities and Correction is divided next January I hope you would not reappoint such men as Robert J. Wright. What a difference between Wright and Police Commissioner Roosevelt of Brooklyn your administration, and I only wish to inform you of the derange of one of your appointees the above named Commissioner Robert J. Wright.

October 1 - 1895.

My dear Col. Strong,  
I am writing from  
the Catskills, where  
we are spending the  
last days of our summer  
outing, before returning  
to our home in Brooklyn.

One of these afternoons  
or evenings, this autumn,  
if you are not too  
busy, I would like  
to bring to you the  
"Comments of the Press,"  
& the letters I have  
received from members

of the last Legislature,  
since my letter to  
you of July 30<sup>th</sup>, in  
regard to the issue,  
was made public.

The tone of the  
press is excellent.  
and the offers of  
assistance at Albany  
next winter, if elected,  
come from members  
of both political  
parties, ex-Senators  
& ex-Assemblymen,  
& this is especially  
satisfying.

The Evening Post  
published the letter  
in full, & added:  
"The Mayor said today  
that he had explained  
his position to Miss  
Schuyler, & that she  
understood it."

When I was asked  
to explain this, I  
admit I was a  
little puzzled, ~~and~~  
not having received  
any answer to the  
letter, but I promptly  
replied: "The Mayor  
and the Association are

in entire accord upon  
this subject, but the  
Mayor does not desire  
to express himself publicly  
until the "back-taxes  
case" has been decided  
by the Courts."

I thought this is what  
you would wish me to  
say - Am I right?

Mr Scott told me the  
City's cases were "privileged"  
before the Courts of  
Appeals. I sincerely  
trust this one will  
be "pushed", for, until  
it is finally disposed  
of, we can do nothing  
that will be satis-  
factory - with the next  
Legislature. But this once  
out of the way (there is an  
October Calendar, is there not?)  
there will, I trust, be no  
difficulty in passing the bill  
speedily. Sincerely & Respectfully,

That badly constructed and very dangerous and already fatal Ice and Building, on the corner of South Fifth Avenue and Third Street, has become a mind-offending Eyesore to thousands and thousands of New Yorkers, who have occasion to travel every day on the Elevated Railroad.

Will not His Honor, Mayor Strong, by means of a <sup>official</sup> communication to the proper officers, at once cause the entire superstructure of the said lofty Eyesore to be completely razed to the ground, and every part and parcel of the foundation itself to be raised to the surface; so that nothing whatever of that repulsive and frightful death-trap shall hereafter remain to shock the pencil or lacerate the heart of any worthy person?

New York, Oct 7<sup>th</sup> 1895.

Hon. Wm. L. Steung; Mayor,

My Friend:

After you have glanced at the newspaper clipping enclosed perhaps you will agree with me that this is a wrong which needs righting, and that the attenuated fossil which rattles around in the space known as the Head of the Fire Department, has made a few errors.

Quincy is saying that "The fire escapes are not volcanoes"

They were called Fire volcanoes" which fact mentioned in city records and have <sup>been</sup> so termed in legal documents since.

Another error is in supposing  
it possible to keep these poor  
additions to the crowded  
airless apartments, free  
from incumbrances by  
force.

"Not all the Kings horses  
Nor all the Kings men"  
(including Mr Roosevelt) can  
do that.

I have been in a tenement  
when the voice of  
"The Signal" rolled up the  
stairway. "Be clearin' off  
the fire-escapes there, will  
ye? Or I'll be comin' up  
an' arrestin' ye! Do ye  
hear me there?" and  
great was the hurry & hurry  
when clothing, tubs, the  
blanketed baby, were pulled  
out of the sunshin' and  
into the stifling room. As  
the policeman turned the  
corner the things resumed  
their place under the heath  
giving sky. The fire escape  
was not examined to

ascertain whether the ladder opening was covered by loose boards or by planks spiked down; or whether being open it was a constant menace to the occupants of the room.

The steep slanting cover to the ladder-hole which we are offering, prevents anything being placed upon it and so prohibits obstruction of the opening. A touch from below opens it and it is lifted with ease. It protects instead of threatens; it gives a feeling of security instead of adding terror to the lives of those oppressed by poverty.

Why, then, is it not at once accepted? Why is <sup>not</sup> this

simple, cheap and effective  
protection ordered  
on every fire escape in  
the city?

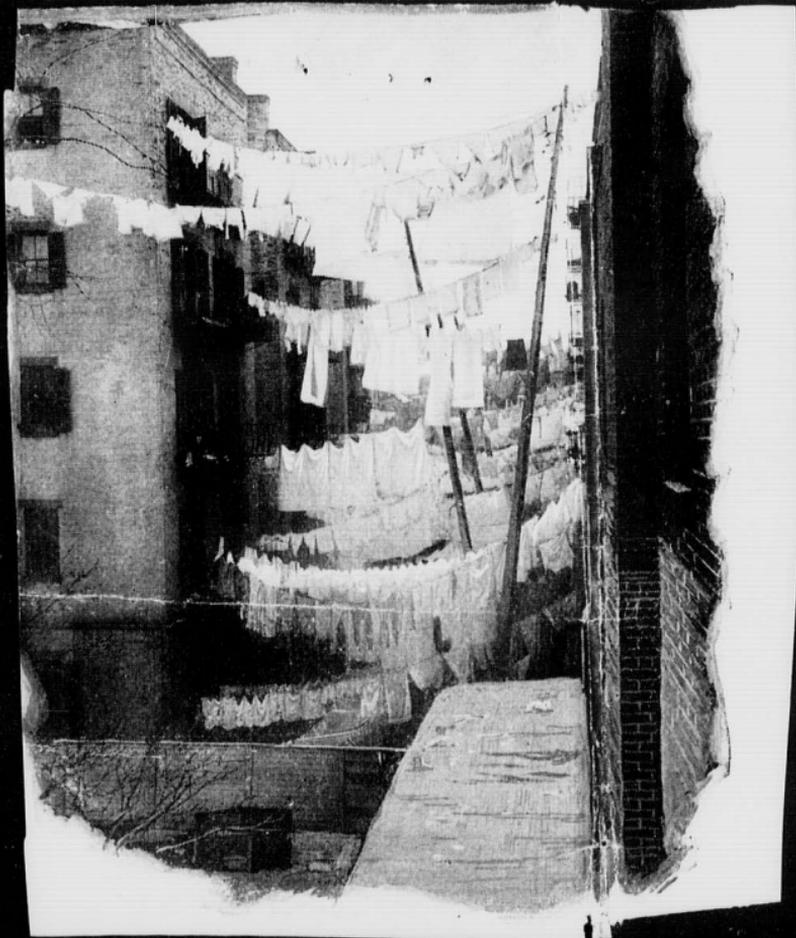

The two views uttered  
on Tuesday last by the  
person mentioned are  
the only objections I can  
hear. Is his dictum  
final?

Yours, earnestly and  
sincerely,

Alma Calder Phanton

MRS PERCK.

LOUIS PERCK.

MOTHER, SON AND THE FATAL FIRE-ESCAPE.

A.—Opening through which little Louis leaped. B.—Where his lifeless body was picked up.

LIGHT OF HER LIFE GONE OUT.

Deserted Mrs. Perck's Beautiful Little Boy Jumps After a Penny and Is Killed.

At the end of their first year of marriage, Henry Perck, finding that child-birth had marred his young wife's comeliness and drawn sharp lines beneath her eyes, deserted her. Four years have passed without word from him. The little woman rose from her sick-bed and went out into the world to earn bread for her baby boy, Louis.

They went to live with her mother, Mrs. Max Goldstein, at No. 38 Columbia street. Louis developed into a beautiful child. All the family and all the neighbors came to love him. Mothers felt a pang of envy when they saw people stop in the street to watch the little fellow at play.

Mrs. Perck obtained employment in Macy's store, and never missed a day. In the evenings she cared for nothing but to play with her little boy. Yesterday she took a day off to go shopping. She went to buy a hat for Louis, a pair of shoes for Louis, a silk handkerchief for Louis, and a few trinkets—all for that little boy. It was 10 o'clock when she left and Louis walked to the door with her. She kissed him and asked:

"Now what do you say to mamma?"

"I love mamma," he said, repeating his daily salutation, and then he burst into laughter and ran back into his grandmother's room.

Two hours later he stood upon the fire-escape, two stories above the street, looking down at the wagons. A penny which he held in his hand slipped and went jingling down the iron ladder to the fire-escape below. Then an old woman who sat at a window across the street shrieked with horror, for Louis, without a moment's hesitation, jumped through the opening in the fire-escape after his penny.

The boy struck the railing of the escape below, and from there dashed headlong to the stone steps beneath, where he lay motionless, while the blood trickled down the steps to the sidewalk and into the gutter. Louis had been killed instantly.

Through some maternal anxiety or some vague, intangible foreboding, Mrs. Perck became worried about her boy, and, without purchasing anything but the shoes, hurried home, coming soon after the body had been taken upstairs.

"I knew it! I knew it!" she screamed, pale as death, with a stream of blood gushing from her nose. "The clocks were turning wrong. I knew something had happened! I hurried, hurried, hurried! My beautiful darling, my beautiful Louis! I was so proud of him!"

She fell unconscious to the floor and they carried her to her room and watched over her for fear she would try to kill herself. A little later a little girl knocked timidly at the door and when it was opened, held out her hand, and said faintly:

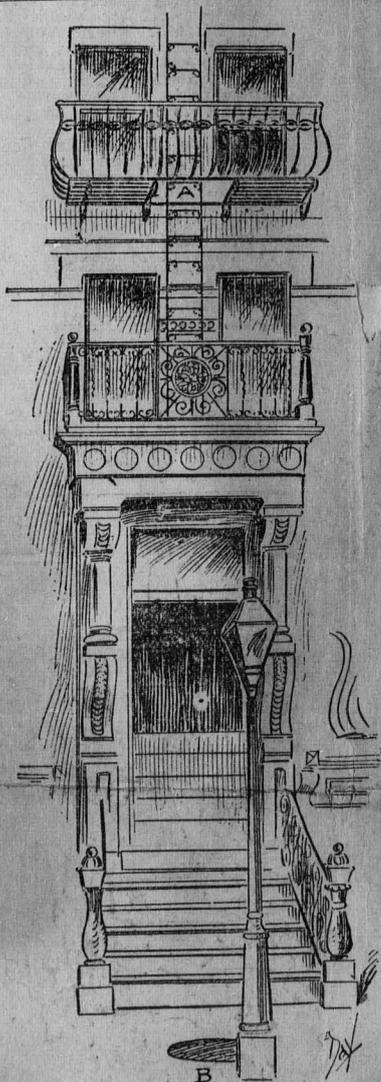

"Here is the penny Louis dropped."

FELL FIVE STORIES: UNHURT.

Little Freda Tumbled Down the Fire-Escape of Her Home.

When Freda Bordeman, nine years old, returned from school to her home, on the top floor of the five-story tenement No. 518 Sixth street yesterday, she found that her parents had gone out and forgotten to leave the key with a neighbor, as was their custom. Freda decided to get into the rooms from the fire-escape, passing through a neighbor's flat.

While on the fire-escape she lost her balance and fell, striking each platform on her way down, and landing in a heap on the sidewalk. The ambulance surgeon could find nothing the matter with her, not even a bruise.

Saved by a Clothesline.

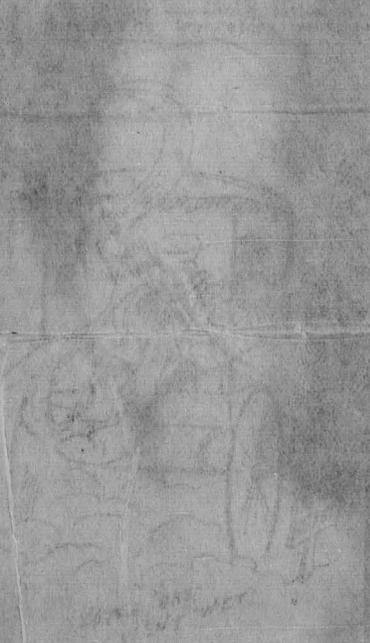

Harry Franklin, four years old, fell from a fire escape of No. 1619 Avenue A yesterday. A clothes line broke his fall. He will recover, a physician said.

STATE OF NEW YORK  
**Assembly Chamber**

N. Y.  
Albany, Oct. 7, 1895.

Hon. J. M. L. Strong,  
Mayor of City of N. Y.  
Dear Sir:

I take the liberty of writing you to call your attention to the fact, that it is very important that you get good men to serve on the Park Board; men who have had experience in out door work, and who know the needs of the Parks. Men of good sound judgment can easily save this city \$500,000. in the next 3 years, on Riverside Park alone. The park as you know, is to be extended out to the bulk head line, in the river, which I have figured will take 1,500,000 loads of filling, which the city can realize on, at a price of \$35 to \$40 a load, and will amount to ~~amount~~ \$600,000. When Tammany was in power this vast sum of money, went into the pockets of the favored heeled.

STATE OF NEW YORK  
**Assembly Chamber**

Albany,

1895

There are, I believe a great many things which still need changing; for instance there are a great number of Tammany dead heads, who still remain on the pay rolls of the Parks. There is that corrupt Tammany Secretary Burnes of the New Park Board, who ought to be turned out body and boots. I sincerely trust that you will appoint the new Park Board as soon as possible, for there is a great deal to be done, or which ought to be done before the cold weather sets in.

In closing I wish to add that if I can be of any service to you, in selecting men for the new Park Board, it will be a great pleasure for me to do so.

Yours very truly,

Dear Sir:-

Commissioners are, or will be, appointed to condemn property situated on Webster Avenue, in order that the avenue may be opened and widened from 201<sup>st</sup> St. (Suburban St.) to Woodlawn.

Such commissioners are, very often, impecunious politicians, anxious only for their salaries, (ten dollars per day) and who needlessly prolong the proceedings for their personal gain, to the great loss and injury of the taxpayers.

Therefore, as representatives of the interested property owners, we respectfully request that you limit the time for condemnation proceedings and fix a date for the filing of the report of same.

By so doing you will confer a very great favor on the taxpayers of this District, who are already burthened by many heavy assessments and who, though anxious for every improvement, are

unwilling and unable to pay exorbitantly for  
any.

Yours respectfully,

Hon Mayor Strong

Dear Sir

It is now  
three years since the  
gutter on the south side  
of Christopher between  
Washington & Greenwich Sts  
has been cleared

For three years the Builders  
have held possession of the  
entire <sup>side</sup> walk around the  
block 1200 feet

The greatest inconvenience to  
the public is on Christopher  
Street on account of the  
Le Road Station and the Ferry  
coming in at the foot of the  
Street. The Builders have covered  
the gutter here with plank 10 in  
5" wide about 4 ft - that is  
only enough for two thin

people to pass The walk is  
in bad order rough  
nail in the bottom as  
well as in the railing  
to tear Ladies dresses and  
many of them have been  
torn there

If the board walk is  
to be left there the  
fourth year the least  
the Builders should do  
would be to remove the  
present old one and replace  
it with a new one  
of not less than 8 planks  
wide And that is hardly  
room enough as there are  
many people who would  
use the walk if they could  
The many Steamship lines  
The S Road and the Ferry  
people are greatly inconvenienced

New York,

189

By the state of affairs  
and the dirt and filth under  
these planks is no more  
healthy than other rubbish.  
A plentiful supply of disinfectant  
would be servicable  
and while at it the inside  
of the fence would make  
good returns of dirt for  
little work

The Bill Board men raised the  
<sup>height of the</sup> fence some three foot recently  
shutting off the electric  
light from Greenwich Street.  
no light should be shut off  
as there are so many  
tough chaps in this locality  
for travel to be safe in  
the dark

Can I by taking a brick  
out of the front of my

house get a permit for  
repair and then build  
a fence over the entire  
sidewalk and rent it out  
to Bill Posters for five years

Why not - I am as good  
a citizen as these people  
that are occupying the  
sidewalks of Christopher St.  
for the past three years  
and bid fair to occupy  
it for fifteen years  
all told according to  
the plan as laid out.

Respectfully yours

Dear Sir:-

13  
The thinking voter who refuses to cast a straight  
ticket and whose ballot may be won over by argument is not easily  
approached. Fireworks and processions have no effect upon him ;  
he is not generally found at the political meeting. Why not talk  
to him right at his fireside, that is, send him a letter which  
shall appeal to his judgment and reason. More game may be bagged  
by a "still hunt" than by beating the bush.

Letters duplicated by Multigraph process have just the  
appearance of the original letter, and they afford a sure means of  
getting and holding the attention of the reader.

This is a sample of the work. The body of this letter  
was reproduced by Multigraphy and your address has been added by  
type-writing.

Shall we call and give further information? When?

As very likely you are aware, we are engaged in the work of applying electricity to the propulsion of canal boats, and the transmission of that energy from the Falls of Niagara to points along the line of the Erie Canal for local distribution. This work is being carried on under the authority of the Superintendent of Public Works, with the approval of the State administration.

We expect to test the efficiency of a system known as the Cable Way or Traction plan at Tonawanda, the present month, in the presence of the Governor, State officers and others. The exact date, however, cannot be determined at this moment, but will be announced in the press dispatches. It will afford us great pleasure to have you present upon that occasion.

To Hon W. L. Strong  
Mayor of the City of New York

Dear Sir,

As a property owner who is suffering from the abortion called the North River Bridge I venture to address a few lines to you knowing that you desire to do justice in every case presented to your consideration. For over two years all the property lying between West 68<sup>th</sup> Street and North River, being west of 10<sup>th</sup> Ave. to the proposed station at Broadway & 42<sup>nd</sup> St. has been under a cloud. No one desires to purchase thinking the property may be condemned or injured. Owners are afraid to ~~make~~ make repairs thinking they may not be paid for them. Improvements are at a standstill and every thing in the vicinity described is stagnant. Still this year we paid higher taxes with decreased receipts. How long will a gang of thieves who have never wrested a dollar except to ~~buy~~ purchase votes for the scheme in Congress be allowed to rob honest citizens. Just as long as you permit. The Evening Sun of last night and the same paper about a month ago had an editorial a month ago on the Bridge which if you have read read it will surely convince you that if we have a

bridge it should be located below 59<sup>th</sup> St  
and the station should be no further East  
than 10<sup>th</sup> Avenue For in the name of God  
Why should you condemn such good  
property as Forty Second St is and  
destroy one of our best streets  
when the station might be located  
where it would improve adjacent  
property not ruin it. Hear our  
Appeal and stop the crowd of  
adventurers who are on the bridge  
for profit only. One who suffers  
but has faith in your sense of  
right.

TAXPAYER'S ASSOCIATION

10th, 11th & 17th Ward,

of the

City of New York,

Headquarters: No. 101 Avenue A,

New York, October 12th, 1895

Hon. Wm. L. Strong,

Mayor of the City of New York.

Dear Sir,

An assemblage of citizens to discuss the present attitude of our City Government in its rigorous enforcement of the Excise Law, and the views expressed thereon as to the condition and feelings of our rather mixed population, should receive attention. Such a meeting was held on the 7th day of October, 1895, at our Headquarters, 101 Avenue A., composed of members of the Taxpayer's Association of the 10th, 11th and 17th Wards.

Taxpayers as a rule are deeply interested in the welfare of our city, carefully noting the cause of any depreciation in the rental value of their properties; the first to hear the complaints of their tenants, and the cause thereof, and it is their unanimous opinion that the newspaper agitation about the closing of saloons, delicatessen stores &c., combined with the pressure brought to bear by our worthy Board of Police Commissioners, is the paramount cause of the present poor financial condition of a great number of their tenants in the various businesses mentioned.

The greater mass of our citizens reside in tenement houses, forced by a restricted territory and direct compulsion to be as near as possible to their place of business. The drinking

of a glass of beer or wine, an almost daily habit, is to them both meat and bread, in fact almost a necessity. They recollect while they were youths the selling or procuring of beer or wine on a Sunday, for their enjoyment was not considered a crime, and on their arrival in this country they were of the same opinion and they cannot be made to think otherwise. Therefore they most respectfully enter their protest against the Act of the Legislature known as the Sunday Closing Law, that prevents their free indulgence in what to them is their right to drink whatever and wherever they please, as long as they do not interfere with their neighbors' peace and quietude.

And we further protest against the Spy System, the placing of an officer in front of a saloon or other place of business for hours at a time, as it prevents him from going over his post and doing his full duty, thereby endangering life and property, as within the past few months burglary and theft seem to be on the increase. And it is the unanimous opinion of the members present that our Police Commissioners should pay equal attention to this subject, on which to display that zest and push in the clearing of our streets of thieves and rogues, and we respectfully ask that you forward such instructions to the Police Commissioners.

And further that as our worthy Mayor has been reported by the Press to be in favor of an Amendment to the present Excise Laws, which will allow a more liberal Sunday selling, we most urgently request that he use his influence with the various members of the Legislature, that the obnoxious Excise Law be so amended to meet the desires and wishes of our citizens.

We also wish to call your Honor's attention to the present dilapidated condition of Tompkins' Square Park, the only

breathing space open for the vast East Side population, that some consideration should be given to its present needs by the proper officials.

The foregoing opinion was by a unanimous vote passed and ordered to be typewritten and a copy thereof to be handed to the Mayor for his consideration.

All of which is respectfully submitted,

Henry Finck

Honorable William L. Strong

Mayor of the City of New York

Dear Sir

Above association, which is deeply interested in the welfare of the West Side, respectfully calls your attention to the following:

Whereas the Metropolitan Street Railway Comp. is enjoying large and valuable franchises from our City, it should give to the public adequate protection at the crossings of its system, and whereas there is no such protection at the dangerous crossing at 53<sup>rd</sup> St. and 8<sup>th</sup> Ave., where narrow escapes are of daily occurrence, it is resolved to respectfully request the Mayor to compel the Metropolitan Street Railway Comp. to give ample protection by stationing permanent guards at the 53<sup>rd</sup> St and 8<sup>th</sup> Ave. crossing.

Respectfully for the association

Hon. Geo. L. Strong, Mayor,

My dear Mr. Mayor,

I beg that you will  
read carefully the enclosed  
letter from Dr. Geo. H. Thomas.

There is no higher au-  
thority in New York in my  
opinion than Dr. Thomas.  
I have known him as long  
as I have known you.

He has a very fine place  
in New Canaan near my

Country Residence and he is  
himself an expert in Land  
scape Gardening. I do not  
suppose that Dr. Thomas  
would entertain the position  
for himself. I very much  
wish that he would in  
the interest of the City. I  
have no hesitation in  
recommending any recommenda-  
tion that he would make.  
I am Dear Sir,

Very truly Yours  
Wm Stewart Smith

October 14.

7 West 56<sup>th</sup> Street. Oct-14-1895

My dear Mr Smith:

I hope that you will excuse the liberty which I take in asking you to use your influence in the promotion of the interests of our Parks. It is a subject which has always appealed to me as a lover of Nature, and I have regarded it as a great pity that in the make up of our Park Boards heretofore there has been so little attention paid to the selection of any one on those boards who has had any special training or adaptation for

parks as parks, and not simply  
as a department of public works.

Now a number of gentlemen have  
strongly advocated the appointment of  
Mr W. F. Stiles, editor of the 'Garden  
and Stream' for such a place on just  
such grounds. Mr Stiles is a resident  
of this city, and for twenty years has  
been a most enthusiastic advocate of  
the culture of trees, shrubs, and  
the beautifying of country residences  
by planting and horticulture generally.  
He is a man of the highest character  
and ability and so widely connected  
with the press, aside from his own

paper. That Mayor Strong could not appoint a man who would  
be ~~more~~ <sup>more</sup> well received by the newspaper fraternity than Mr Stiles.

I speak of this advisedly, and I am sure that if you could  
say a word in his favor to the Mayor, that you will  
be adding another to the many services which you are  
rendering to the City.

Yours sincerely

W. A. Thomson

I Blougr. Edwards saw  
a notice in the Chicago  
Times Herald Oct 12<sup>th</sup> of  
the Edwards estate of  
New York, of which I con-  
sider myself to be one of  
the heirs.

Our family was born  
in the Town of Warren,  
Herkimer Co. in the year  
of 1808 to 1824, about 1824  
my father, Lemuel  
Edwards died, we then  
moved to Ohio in 1826.

and from there 1836 to Illinois,  
and have always remained  
my brothers and sisters,  
have all died in Illinois.

I being the only one liv-  
ing of the brothers & sisters.

I am writing this to  
get information from  
the estate. I will be much  
pleased if it is convenient  
for you to answer this  
directly, and if you know  
anything of the heirships  
of the Edwards estate to  
please mention in your  
letter. I would like to  
get all the information  
I can.

Yours Truly,  
Wm. Edwards,  
Ottawa, La. Salle. Co.  
Illinois.

P.S. My Grandfather and Great Grandfather were both buried at North Guilford, Conn. I have a niece Mrs. Amelia Ward living at the same place.

A. C.

Fort Washington

New York City - October 14/95-

Hon. William L. Strong -  
Mayor's Office -  
City Hall.

Dear Sir,

In compliance with  
your request that I submit to you in writing the subject  
to which I asked your attention some short time since, I  
now hand you herewith a statement of the matter, and  
would respectfully ask for it a careful consideration  
by you and by the Corporation Counsel.

The point raised is an important  
one, and one which I believe has never been judicially  
decided. Indeed I doubt whether one just like it has  
ever arisen, or, if arisen, has ever been discussed.

It resolves itself into this question,  
Has a Contractor a right to appropriate ~~any~~ property  
belonging to the City for his own pecuniary benefit?

If he has, must he not give the City  
credit for it, when settling up his contract?

The case in which this point is  
raised is, "The regulating and grading of the 'Public  
Drive', or, as it is now known as 'Boulevard Lafayette-  
-ette'".

The "Public Drive," so designated by  
Commissioners of Parks, who laid it out nearly thirty  
6160-1/2/95

years ago, was intended by the Commissioners, as part of a grand Public Drive around Manhattan Island.

It was not designed for a business thoroughfare, nor for the development of the property through which its lines were drawn. It was planned to be 100 feet in width, and the City acquired title to the strip, of that width, from 157<sup>th</sup> Street North to Kingsbridge Road at Dyckman Street.

It was not designed to construct, regulate and grade a Road 100 feet wide, on a steep side hill, but to make a "Drive", as its name implies, or Park Way, 50 to 60 feet wide, in such part of the 100 feet as the topography would most easily permit. The intention being, as Hon. Andrew H. Green, Comptroller of Parks at the time, has often asserted, to have the grade of the road-way conform as nearly as possible to the natural formation of the land, and to construct the road in such parts of the entire strip as would allow the preservation of any natural beauties, whether woods, individual trees, or rocks, as would add to the natural beauties of this Public Drive along the Hudson River.

Twenty years passed without anything being done in the matter of regulating and grading this Drive.

The Board of Street-Opening a few years ago proposed to regulate and grade this Drive to the full width acquired by the City - viz 100 feet, and to assess its cost upon the abutting property.

The proposed grade was such as to render access to the land on either side of the Road impossible - the Road being 20-30- even 50 feet above it on one side, and as much below it on the other -

A meeting of Property holders was had before the Board of Street Opening and Improvement, and it was finally agreed that a Road 60 feet in width should be constructed -

A contract for such work was entered into, and the Road is now about to be turned over to the City -

For the particulars of the Construction reference will be made to the Contract -

There remained a strip of land belonging to the City, 40 feet wide, on the East side of the Road to be constructed - and this in many places would have added greatly to the beauty of the Drive; consisting as it did of wooded bank, or bold protruding rock - All this beauty has been destroyed - for the Contractor has used any material, whether rock or soil, that he could turn into the road-way, rendering the Eastern side of the Drive hideous in its appearance, cutting off all possible communication between the constructed road and the property, and has, it is believed, charged the City for the material he has thus appropriated, as if <sup>it</sup> were material he had purchased

and brought there. It appears to me that all material outside of the 60 foot strip to be graded belonged to the City, and should have been preserved.

I have not been able to learn that any Department of the City Government had authority to dispose of this. And if it should be found that such authority does exist it certainly should have been sold and the City credited with the amount received. Instead of this the City is charged for this material as extra filling, to the amount of several thousand dollars.

Much, if not all, of the material used for the construction of a private road in this vicinity, by the Contractor for the "Drive", and for which he was paid several thousand dollars, was taken from the City's 40 foot strip.

I am sorry to have trespassed so much upon your time, but I believe the subject to be one calling for examination before the Contractor is settled with, and I can not learn that any one Department has jurisdiction of such a case.

A personal inspection by yourself, and Corporation Counsel would aid for greatly in understanding the exact condition of this case - and I would be much pleased if you would give it such consideration.

Very truly & Respectfully  
Yours,  
John Haber.

To the Hon Mayor W. L. Strong,

Dear Sir

Pardon this line of grievance but as one  
the Evening papers has told in its columns  
about the unjust taxation I thought I might  
intrude on your valuable time to say  
how unjustly we have been treated here  
in the 19<sup>th</sup> Ward we are only struggling and  
trying to put roof over our head by hard  
work etc but when the valuation of little  
House such as ours 16-8 by 98 is increased  
\$1500~~00~~ over last year I cannot understand  
it we put one extra room on our House for

31

Workroom very plain affair at a cost of  
 Eight hundred dollars and the assessor  
 Mr McAnroe told me it was nice block  
 and assessed no doubt the cost last  
 year we were assessed at valuation of  
 15,000 this year at 16,500 we certainly  
 would not have objected to a valuation  
 of 15,500 but to have to pay taxes on  
 1,000 more I think an outrage sorry  
 to have to write you but I think the  
 Assessor & Commissioners should  
 have come me to tell them  
 about it

Respectfully

A S Gannon

BLOCK 529, Ward No. 46:

This block is assessed about \$1,000. per front foot. This house is 16 feet, 8, and assessed at \$16,500. It is one of three of that width; the other is \$16,000. because it has no extension; the third is \$15,000. because it adjoins a stable.

It is not assessed over 60% of its value.

A house 21 feet wide, next west of complainant, is assessed at \$23,000.

All the houses are four stories, 55 and 56 feet deep, with extensions.

My dear Sir

Your letter asking me to name a day when I could meet the Board of the Soldiers and Sailors Memorial Association was received today.

As I leave town on Friday next to be absent until the 23<sup>d</sup> inst. and as your Board cannot convene after that date until the Saturday following - 26<sup>th</sup> inst. I would suggest that day as the earliest on which I could

appear before you.

If this date should be agreeable to you kindly give me as early notice as possible at the same time naming the hour of meeting -

Chamber of Commerce of the State of New-York,

New-York, October 15, 1895.

Mr. Henry L. Strong

DEAR SIR:

The last Legislature having made an appropriation to refund the money contributed towards the expenses of the LEXOW COMMITTEE in their investigation of the Police Department of this City during the summer and autumn of 1894, I now have the pleasure of enclosing a check for the amount contributed by you for that purpose.

In performing this pleasant duty permit me to express to you the thanks of the Chamber for your prompt and generous response to its appeal.

Very respectfully,

  
President.
