PEOPLE ON MY COMPLAINT,
VERSUS

Henry Bauer

As complainant in the above case, I beg to recommend the defendant to such leniency and clemency as the Court and District Attorney may see fit to show; but I expressly assert that my reasons for so doing are not controlled by any advantage to myself. My reasons are that the defendant is a poor man with a wife and several children dependent upon him for support, and upon his wages as a sign maker, that two of his children are very sick, that I am not positive that the defendant struck or stabbed me with a knife but believe, as I have since been informed, that the injury was occasioned by a ring on his finger. The affray occurred in consequence of a dispute because he had no money to pay for some lager beer which he had ordered in my saloon, he has been imprisoned since the 25th of February last being unable to furnish bail, and his wife and children are suffering.

Deponent then said "this is very bad milk" and the defendant said "It has just come off one of my wagons" and deponent said "you have been selling it" defendant said "I presume so." the deponent said "it will have to be destroyed." and the defendant said "very well I do not care to keep it." This is as the deponent recollects was the whole conversation, except that the defendant went on to say something of his suspicion of one of his drivers who might have manipulated the milk. This deponent has not in words or substance said that if the statement today made in Court, where this deponent was in attendance as a witness, had been made at the time of the inspection, the complaint would not have been made, and ~~was~~ ^{not} either in statement or in explanation at the time, or in the appearance of any of the cans, any evidence whatever, that the adulteration of the milk had been caused, by the melting of ice in the milk; and this deponent has no reason to believe, that the statement, that the adulteration of the milk was accidentally made, by mingling frozen milk and milk not frozen, or by heating, is in any respect true.

ALBERT S. HAKES being duly sworn deposes and says. I reside at number 347 West 44th street in the City of New York and am engaged in business as a wholesale and retail dealer in milk in the City of New York, having an office at number 307 West 44th street in said City. I have been so engaged in such business in the City of New York upwards of eight years, and have been located at the office last mentioned for nearly three years. I do an extensive business, selling about fifty cans or two thousand quarts of milk per day.

I sell very little milk at my said office, my business being that of supplying families, hotels, restaurants &c. I am obliged to leave the details of my business largely to employees. I employ eight delivery wagons in my business and have a foreman and nine other men in my employ. Milk is brought to the office by my trucks and given by my foreman to the drivers. I have always taken the most careful precautions to prevent any adulterated or unwholesome milk from being kept on my premises or from being sold or offered for sale in the course of my business.

My foreman has always been supplied with a lacto-

My foreman has always been supplied with a lacto-

meter and cream-guage, and has had explicit instructions to examine all milk received, and to permit no milk to be kept, or sent out, or offered for sale that was not pure, unadulterated and up to the requisite standard. As a further precaution it is the duty of each driver also to examine the milk which he takes out.

I never have knowingly permitted any milk that was not perfectly pure and up to the legal standard to be sold or offered for sale in the course of my business.

I understand that the foundation of the charge against me in this proceeding is that the Inspector of the Board of Health found in the storeroom adjoining my office, on the 7th day of February instant, a can containing about fifteen quarts of milk which did not stand the lactometer test. At the same time there was twenty six cans and over a thousand quarts of milk in the storeroom which the inspector tested to his satisfaction and found fully up to the standard.

I have made an investigation respecting the liquid found by the Inspector as above mentioned, and have ascertained that it was composed of what is known as "The Freezings" from cans brought in shortly before the call of the Inspector. According to the practice of our business, each driver is charged in the morning with the amount of milk that he receives, and on his return he is credited with the amount he brings back. As a further precaution it is the duty of each driver also to examine the milk which he takes out.

I have never known any milk that was not perfectly pure and up to the local standard to be sold or offered for sale in the course of my business.

I understand that the foundation of the evidence against me in this proceeding is that the Inspector of the Board of Health found in the storeroom adjoining my office, on the 7th day of February instant, a can containing about fifteen quarts of milk which did not stand the lactometer test. At the same time there was twenty six cans of over a thousand quarts of milk in the storeroom which the inspector tasted to his satisfaction and found came up to the standard.

I have made an investigation respecting the liquid found by the Inspector as above mentioned, and have ascertained that it was composed of what is known as "the droppings" from cans brought in shortly before the call of the Inspector. According to the practice of our business, each driver is charged in the morning with the amount of milk that he receives, and on his return he is credited with the amount he brings back. In cold weather the watery parts of the milk freeze and form a layer of ice around the inside

of the can and in order to ascertain the amount of milk that the driver should be charged with, it is necessary to melt down and measure the ice thus formed in the cans. These "Freezings" thus formed and found by the Inspector being of the watery parts of the milk, did not stand the test of the lactometer; but they had not been exposed for sale and were not intended to be sold; but after the proper measurements were made were to be thrown away.

My milk has been frequently tested by the Board of Health and no other complaint has ever been made against me.

Benjamin T. Briggs, whose affidavit accompanies this, has been my foreman for nearly three years past and has been in my employ upwards of eight years.

I have been engaged in the milk business for upwards of eighteen years and have been in the employ of Albert S. Beakes as foreman for about three years past. I receive all the milk when it is brought in at night from the railroads, and give out the milk to the drivers who go out upon the routes and deliver it to customers.

I have been supplied by Mr. Beakes with a lactometer and cream-gauge and my instructions from him have always been to examine all milk and use every precaution against any milk being offered for sale that was not fully up to the legal requirements.

I never permit any milk to go out of the store-room or be offered for sale until I have examined it. It is also the duty and the habit of the drivers to examine their milk before going out with it. I have never permitted any milk that was not pure and up to the legal standard to be sold or offered for sale. I am at Mr. Beakes' place of

vs.

Albert S. Spokes.

State, County of State of New York. ss.

THOMAS L. SPILK, do-

do, being sworn, deposes and says: I reside at number 236 West 17th Street in the City of New York. I have been engaged in the milk business for upwards of eighteen years and have been in the employ of Albert S. Spokes as foreman for about three years past. I receive all the milk when it is brought in at night from the railroads, and pay out the milk to the drivers who go out upon the routes and deliver it to customers.

I have been supplied by Mr. Spokes with a lactometer and thermometer and my instructions from him have always been to examine all milk and use every precaution against any milk being offered for sale that was not fully up to the legal requirements.

I never permit any milk to go out of the storeroom or be offered for sale until I have examined it. It is also the duty and the habit of the drivers to examine their milk before going out with it. I have never permitted any milk that was not pure and up to the legal standards to be sold or offered for sale. I am at Mr. Spokes' place of

business every day during the hours of our business. In the morning all the milk brought in from the railroad is taken from the trucks into the store-room after being unloaded. I am held responsible for all the milk received. No milk is sold in the store-room and no milk is taken out for sale except as given out by me to the persons who sell it.

The milk or liquid consisting of about fifteen quarts tested by the milk inspector in Mr. Jones' store-room on the 7th day of February instant, consisted of the "Freezings" from some cans which had been sent out in the morning filled with milk and had been returned shortly before the Inspector called. In order to ascertain the amount of milk to be accounted for by the drivers it is necessary to melt down and measure the ice which in cold weather forms around the inside of the cans, and the substance found as aforesaid by the Inspector was composed solely of such "Freezings" which had been melted down and put into a can for measurement, -- such "Freezings" being of the watery parts of the milk- did not, when melted down, stand the test of the lactometer.

The liquid contained in this can had not been offered for sale, was not then exposed for sale, and never would have been offered for sale, but after proper entries had been made by me in my books would have been thrown away.

 Indictment for piracy to property.

Court of General Sessions. Part I
 Before Judge Cowing. Feb. 24. 1888.

William Schneider sworn. I am a peace
 maker at 165 and 167 Christie St. Mr. Krumm's
 place; on the 12th of this month three men and
 the prisoner came into the place and they
 made noise inside of the saloon and the
 proprietor told them to stop, and to go out.
 They went out and stopped out three or four
 minutes and came in again and made
 a noise. They sat down and asked for beer
 and the waiter brought them weiss beer; they
 refused that; they wanted lager and the
 waiter told them they did not sell any lager.
 They made a noise and Mr. Krumm told
 them not to make a noise and to go out.
 Just off they did not want to pay for the
 beer. Mr. Krumm told me to stop them making
 a noise and while I was going out I saw
 that the defendant had something in his
 hand; he struck, I could not tell where it
 was struck into the window and broke the
 window of the side door. I slipped or I would
 have caught him; he ran and the other
 two ran; after I picked myself up I ran
 in the middle of the street. I caught him
 jumping on a car; the officer was
 behind me and he arrested him. I saw

the pane of glass broke when I came back; it was destroyed. The defendant said he did not do it, and the officer examined ~~my~~ his hand and it was cut; it was a fresh cut and it was bleeding. Cross Examined. His right hand was cut between the thumb and fore finger. I am a deputy sheriff and have a badge. I am not a "bummer," but I have heard the word used. It is my duty to eject people from the place when they deserve it. These men left the saloon for the last time that night between eight and nine o'clock. There was one of the men paid for the drinks and he was the last man who left the place. There are two large panes of glass in the window; the one nearest the door was the one that was broken. I saw the defendant strike the glass and heard the noise also. I did not lose sight of the defendant when he ran until he was caught; the police officer was behind me because everybody was hallooing "stop thief." I accompanied the defendant to the station house and was present when he was searched. A large knife was found upon him. The glass is French plate. I think M. Krurum has been in that place six or seven years if I am not mistaken. I have not been with him

all that time. I have been with him since New Years; there was a hole made through the centre of the pane. I believe it was worth \$85. I have no doubt but that I saw the defendant strike and break the pane of glass.

Charles Krumm sworn. I am the proprietor of the place in Christie St. and remember the night of the 12th of February when Blumenthal was in there; he came in with two or three other men and made a noise and I told them to behave themselves, it was Sunday, and I told Mr. Schreier to order the men to go outside. They made a mess in the saloon because they could get no beer; we sell no beer ^{or ale} ~~or~~ license for a concert. I followed them to the doors and the man with the red hair I saw him when he knocked the window; he said, "if we can't get beer, we will give him something else." He knocked the window in with his fist; the window was insured for \$176 and the pane was worth \$88. I saw the officer chase the defendant Cross. Examined. The glass is ten by six and it is $\frac{3}{8}$ of an inch thick. I have been in the place for the last fifteen years. I put in a new front four years ago. I have a sacred concert there every Sunday night, I have a license from the

May we have only weiss beer for sale.

Julius Fergerson being sworn says: I reside at 20 Clinton St. Brooklyn I am a baker. On September 11, 1887 about 5.30 PM I was going to work while coming up Sands St. I was about two doors from Cor. Adams St. when I saw a man crossing the street & while in the act of crossing he was knocked down by the pole of a Covered wagon and the horse stepped on him and two wheels went over him. There were two horses attached to the wagon. They were going pretty lively. He had his neck on the track. I hurried to the driver to stop but he would not & ran away. An Officer took me as a witness. He asked me who ran over the man & I told him it was Brady. He and I went to Brady's stable & found the horses unhitched and Brady asked what was the matter. I had known Brady previously that is why I knew where to go to find him. It was a fine day. It was like a grocery wagon.

On Sept. 11/87 ~~at 5:30 AM~~ I was standing on Cor of Adams & Sands St. I saw Mr Brady's wagon coming down from the Bridge on the left hand side, As he got about half way bet. Adams & Sands St he pulled his horses to the right. The deceased was crossing the street from left to right. He was struck by the pole of the wagon which was a large covered two horse wagon. I followed to Mr Brady to stop that he had run over a man. He did not stop but ran away. I ran to Cor Pearl & Sand. Mr Brady went through Pearl St instead of going through Sands St as he generally does. He drove away very lively after the accident, faster than he ought to drive in the street. I went into the Drug Store of D. Munnings & told him about the accident to the deceased. Then I ran from there to Mr Brady's stable where I found the horses unhitched. An Officer the stable doors were closed and
