August 2, 1911.

Hon. Wm. J. Gaynor, Mayor,
City Hall, Manhattan.

Dear Mr. Mayor:

Our Board of Trustees of the College of the City of New York have suffered such irreparable loss in the death of our Chairman, Mr. Shepard, whom you knew so well, that they have asked Mr. Lee Kohns and me to see you respecting your appointment of his successor. We have no names to suggest, but Mr. Shepard's work was cut off at such an important juncture of the College affairs, that we desire to forthwith submit to you some considerations that our Board feels should have weight in the selection of his successor.

Five minutes will answer for the interview, and if you will permit us to see you sometime between 11:30 and 12:00 tomorrow, the 3rd, we will esteem it a favor, and will call up your office in the morning to see whether such appointment will suit your convenience.

Very truly yours,

Herbert U. Silleck

September 21st, 1911

Dear Mr. Adamson:

In response to your request under date of September 12th, accompanied by a complaint made by Mr. Edmond Johnson, I beg to send you a copy of the statement which I have just received from the Curator of the College buildings and grounds.

I am glad to be able to make answer that should relieve the complainant of anxiety.

Sincerely yours,

To

Mr. Robert Adamson,
Secretary to the Mayor,
New York City.

COLLEGE OF THE CITY OF N.Y.

OFFICE OF THE CURATOR,

Sept. 16, 1911

Dear Dr. Finley:

In answer to the communication from the Mayor with reference to the condition of the engines, I have requested the Chief Engineer to make an examination and he reports that all the engines are in good working order, with the exception of engine #3, which is undergoing repairs and not being used at the present time. Occasionally a wedge bolt breaks, but this does not cause any serious damage, as the engine is immediately stopped and repaired. Accidents of this kind are liable to occur to any engine. During the time the contractor was rebuilding engine #2, and before it was accepted by the College, one of the rods connected with the engine broke and caused some damage to the ceiling. This I think was two or three years ago.

Yours very truly,

(signed) R.V. Davis, Jr.,
Curator.

[Handwritten notes and scribbles in the bottom left corner, including a large circular mark and several lines of illegible text.]

Sept 21/1911
No. to Sept 12/11
a letter of
E. Johnson

This I found was two or three years ago.
With the one the above and caused some damage to the ceiling.
and below it was accepted by the collector, one of the rods connected

Found very thin.
